## **Refurbishing Work on Storage Tank to Start Mar. 19**

*Work Will Take Place at Night in Library Parking Structure Entrance*

Beverly Hills, CA – The City of Beverly Hills Public Works Department will start refurbishing an underground storage tank below the Library starting Mon. Mar.19, for approx. one month.

The work will take place in the ADA parking area of the Library entrance, blocking access to the outside handicapped parking spaces and the book drop-off during construction. A large truck will be staged in the entrance to expedite the work.

Please note the following restrictions and access during construction only:

- The parking structure will be open and handicapped parking will be available inside the structure.
- One lane open each direction in and out of the parking structure.
- Pedestrian access will be maintained at all times.
- No left turns will be allowed from southbound Rexford Drive into the parking structure.
- The work will take place at night in order to minimize inconvenience for Library patrons. Construction hours are 8 p.m. to 6 a.m. Mon.-Fri.

The tank is used to store water to support the chillers and cooling system serving the Civic Center building.

For additional information, please send an email to [PW@beverlyhills.org](mailto:PW@beverlyhills.org) or call the Public Works customer service line 310 285-2467.
