

### Did you know?

One hour of mowing your lawn with a gasoline-powered lawn mower pollutes as much as driving your car for 100 miles.

### Goal

Provide a healthy environment for wildlife and for all who live, work and play in the City

### What can you do?

- Use products that are environmentally sensitive for your family and pets
- Avoid products with excessive dyes, perfumes and chemicals
- Dispose of household cleaners and chemicals responsibly

### What the City is doing:

- Prohibiting smoking within five feet of outdoor dining areas
- Encouraging walking and bicycling
- Offering athletic activities at community centers
