Go Paperless
As a Department that promotes sustainability and as we continue to build our readership, our goal is to eventually distribute the newsletter electronically only. We encourage you to subscribe to the following link and opt in by selecting the Public Works Newsletter for the electronic version. The electronic newsletters allow the City to share more information while reducing paper production. www.beverlyhills.org/enotice

Citywide Pavement Marking Project
The City has contracted with PCI to repaint traffic lane lines, crosswalks, and pavement markings throughout the City. The project was awarded to PCI on February 18, 2020 and will repaint traffic markings in an effort to improve marking visibility and safety. Construction is anticipated to take place between May 2020 to July 2020.

Water Mains Replacement Project
The City is planning to replace approximately 13,400 feet of water main on Loma Vista Drive, 2,100 feet of water main on San Ysidro Drive and 7,300 feet of water main on Coldwater Canyon Drive. Existing pipelines are 6-inches to 16-inches in diameter with most sections between 60 and 90 years old. Water mains replacement is part of the City’s ongoing Capital Improvement Program intended to protect and maintain its water infrastructure. Water mains are primary conduits for transmitting and distributing potable water to residents and businesses within the City as well as the necessary water for fire suppression. Design of these water mains are currently under way.

Tips for Managing Space in Trash Containers & Alleys
For properties that receive alley collection service, bulky item pick-up and alley maintenance services are provided twice a month to collect items and yard debris too large to fit in containers. The alley service schedule is as follows:
• Alleys located North of Santa Monica Blvd. are serviced every 1st and 3rd week of the month.
• Alleys located South of Santa Monica Blvd. are serviced every 2nd and 4th week of the month.

Please break down boxes before placing them into the container. For larger boxes, break them down and place them next to your container; call Public Works Customer Service at 310-285-2467 for a special pick up.

Customers who have curbside collection service can call Public Works Customer Service for pick up of bulky items that do not fit in the container.

Earn Incentives While Helping the Environment Through CPA’s Power Response Program

Residential customers with smart thermostats or solar and battery energy storage systems can earn financial benefits when managing their energy usage during peak demand times. To see if you qualify for CPA Power Response, to sign up, and for more information, visit: cleanpoweralliance.org/respowerresponse.

Commercial customers, which includes our business, industrial, and municipal customers with EV charging or solar and battery energy storage systems can receive bill credits when managing their energy usage during peak demand times. To see if your business or municipality qualifies for CPA Power Response, to sign up, and for more information, visit: cleanpoweralliance.org/compowerresponse.

You can also contact us to see if you qualify at 888-331-3534 or powerresponse@cleanpoweralliance.org.

WIPES CLOG PIPES
Avoid sewer backups and protect your pipes! Dispose of these items in the trash, NOT in the toilet.

- Disinfecting wipes
- Baby wipes
- Towelettes
- Paper towels
- Facial tissues
- Feminine products

Help us keep the sewers clean.

For more information please contact us at (310) 285-2467 or AskPW@beverlyhills.org.

Any Leaks Lurking in Your House?
Did you know that one leaky toilet can waste up to 200 gallons of water an hour?! And, an underground leaking pipe can waste just as much – if not more? Many water leaks are not visible and can go undetected for months and months. Not only is this water waste sad and unnecessary, it eventually shows up on your utility bill! The City of Beverly Hills has taken a proactive step to help our customers detect continuous water flow issues soon after they start with an online program called Water Tracker. Beverly Hills water customers can sign up for this free program by going to www.water.beverlyhills.org.
