The Design Show

LUXE interiors + design magazine, the Friends of Greystone, the City of Beverly Hills and approx. 25 world-class interior designers will transform the Historic Greystone Mansion in Beverly Hills into Maison de Luxe.

Once again this glorious home will come alive again for all to view. This is a rare opportunity for visitors to actually see inside this historical treasure. And, for sponsors, we have created numerous exciting ways for you to participate.

Otherwise known as the Doheny Mansion, there are countless stories about how this home came to be, about the Doheny family who once lived there, and the infamous murder that took place.

Greystone Mansion is also the backdrop for many award winning movies, television shows and music videos. If you have seen *There Will Be Blood*, *The Bodyguard*, and *Witches of Eastwick*, you will recognize the rooms in which they were filmed.
