In an ongoing effort to improve local government and ensure transparent and effective City operations, the City of Beverly Hills has launched the Trust and Innovation Portal (TIP) at www.beverlyhills.org/tip.

The site is managed by the newly created Office of the City Auditor and will serve several important functions. Visitors to the portal may share ideas for performance enhancement of City services as well as confidentially report suspected cases of improper activity.

“TIP maintains trust by safeguarding taxpayer dollars and resources while encouraging strategic thinking and innovative solutions.”

“TIP is a groundbreaking tool for our community,” said City Auditor Eduardo Luna.

Established in 2018, the Office of the City Auditor is an independent office that reports directly to the City Council. The Office conducts performance audits of City departments, offices, and agencies in accordance with government auditing standards and provides routine public updates to the City Council.

North Cañon Drive in Beverly Hills is no longer accessible to vehicular traffic at Wilshire Boulevard as construction work on the METRO Purple Line continues.

A 20-foot sound wall with artistic design will soon be installed at the intersection of North Cañon and Wilshire for a minimum of two years during major construction. North Cañon will be reconfigured into a cul de sac while pedestrian access will be maintained in most areas of the closure.

A four-way traffic signal is being installed at Clifton Way and Crescent Drive to mitigate anticipated traffic impacts caused by the North Cañon closure. For more information, please visit www.beverlyhills.org/purpleline
