Beverly Hills Public Library Reading Room Undergoes Refurbishment

Beverly Hills, Calif. – Beginning April 15, the Beverly Hills Public Library’s Reading Room will begin preparing for a facelift with new reading tables, study lamps, ample power and data outlets, new carpet, and a remodel of the newspapers and magazines section. Newspapers and magazines have been relocated to a nearby location during construction.

In addition, a remodel to the northeast section of the library will accommodate a new passport office. With over 1000 passport applications accepted monthly through the library, an additional office is needed. Construction for both the reading room and passport office is expected to be complete by September.

To accommodate library patrons who use the reading room additional seating will be added to the second floor reference area during construction.
