DESCRIPTION:

333 Camden:

Palms of several varieties enhance the look of this courtyard plan. The low stucco wall which surrounds the courtyard is of medium height and is connect to the one story portion of the residence which is capped by a front facing gable. In this gable end is a large window with a wrought iron grill. The two story portion of this Spanish Colonial Revival residence is partially obscured by the plantings, but the entire complex exhibits the hallmarks of the Spanish style.
