City to Host Two Virtual Design Charrettes for
Connect Beverly Hills on October 14, 15

Beverly Hills, CA – The City of Beverly Hills is hosting two Virtual Design Charrettes for Connect Beverly Hills: Meet Me on Wilshire and La Cienega on October 14th and October 15th, 2020. Connect Beverly Hills is a project to develop a series of streetscape plans and design standards for commercial corridors in Beverly Hills. The City is starting with Wilshire and La Cienega Boulevards to prepare for the upcoming Metro Purple Line Extension bringing two new subway stations to Beverly Hills: Wilshire/La Cienega in 2023 and Wilshire/Rodeo in 2025.

A charrette is a design workshop where stakeholders can provide valuable feedback to shape project recommendations. At the upcoming Virtual Design Charrette, the project team will share ideas for the streetscape plan, design standards, and proposed Mobility Hub at Wilshire/North Gale. Draft designs will be based on public input received so far, including the recent design elements preference survey and Virtual Discovery Charette held in June 2020. The community will get the opportunity to review the survey results and potential design options, and advance draft designs and amenities for the boulevards. The project’s new short animated video is a quick and easy introduction to what the Charrettes will cover.

Stakeholders are encouraged to RSVP here for the following dates:

- October 14, 5 p.m. - 7 p.m. Street Design and Amenities
- October 15, 4 p.m. - 6 p.m. Mobility Hub

For more information and to stay involved, visit the project website at connect.beverlyhills.org, or contact the City by email at transportation@beverlyhills.org or phone at 310-285-1128.
