The Task Force had a discussion of a number of ideas and recommendations regarding signage/permitting and foot traffic. In addition to the prior recommendations developed at last month’s meeting, the Task Force recommended that that the City: (1) develop an incentive program for existing business owners to update their storefront signage, (2) extend the law allowing “Leased” signs to remain on storefronts for additional time and create a template for businesses to display that they are “Coming Soon”, (3) create a business concierge program to help businesses navigate permitting and related requirements; and (4) create signage standard for template wall or projecting signs that can be approved at City staff level.

The Liaisons also recommended that the recommendations from the Task Force be shared with other business groups in the community prior to being presented to the City Council.
