Removal of Eucalyptus Tree on Parcel 13 ***Master Arborist to Evaluate Health of Trees***

Beverly Hills, Calif. – The City of Beverly Hills will remove a Eucalyptus tree from Parcel 13 on Monday, January 30 at 12 p.m. Due to the recent rains, the tree is leaning over on Civic Center Drive. An independent master arborist has determined it to be in imminent danger of uprooting.

The State Department of Toxic Substance Control (DTSC) and the City of Beverly Hills have approved the work plan in removing the Eucalyptus tree on the site. The Beverly Hills Land Company (BHLC) has been notified that maintenance workers will enter the enclosed area to remove the tree on the property. While tree removal and chipping will take place by maintenance workers, the City's arborist and a Hazwoper-trained industrial hygienist will be onsite at all times. The tree stump will remain to prevent any soil disturbance. Air monitoring will occur throughout the process.

Additionally, the independent master arborist will be conducting a full evaluation and provide a complete report of the health of the City's trees on Parcels 12 and 13. No soil will be disturbed during this process.
