

Did you know?

If we continue on our present course, Los Angeles area residents will create enough garbage to fill the L.A. Coliseum everyday.

Goal

Encourage a reduction in waste and an increase in the amount of materials recycled

What can you do?

- When shopping, bring your own reusable bags and avoid products that have too much packaging
- Choose products that are made of recycled materials
- Reuse items as much as possible to reduce waste
- Carry your own reusable water bottle

What the City is doing:

- Exceeding the state mandated 50% diversion of waste from landfills
- Providing e-waste (electronic devices, batteries, etc.) collection
- Minimizing the amount of solid waste deposited in landfills through reducing, reusing and recycling
