## **Beverly Hills Joins 6<sup>th</sup> Annual National Infrastructure Week**

*Infrastructure Week – May 14-21, 2018 – is a week-long series of events raising awareness about why it is #TimeToBuild better infrastructure*

Beverly Hills, CA – Today, Beverly Hills announced its participation in the national advocacy and educational event, Infrastructure Week, which will take place from May 14-21, 2018. Across the country, hundreds of businesses, local governments and elected officials will come together to spread the message about why it is *#TimeToBuild*. The City of Beverly Hills will be spreading the word at our City's annual Public Works Day event on Sunday, May 20, 2018, from 9am-1pm at the Farmers' Market, 9300 block of Civic Center Drive, and with informative social media posts throughout the week.

“Solid infrastructure is the backbone of any city. The Department of Public Works is committed to providing quality public works services for the City of Beverly Hills,” said Mayor Julian A. Gold, M.D. Mayor Gold continued, “Whether in civil engineering, street maintenance, urban forestry, parking services, solid waste disposal or water utility, Public Works is committed to ensuring a positive and seamless infrastructure experience for the residents, businesses and visitors of Beverly Hills.”

Director of Infrastructure Week, Zach Schafer, added, “We are thrilled that Beverly Hills is joining Infrastructure Week. The dire state of America's infrastructure is one of the most pressing issues facing us as a nation, and the benefits of a stronger, better infrastructure system will be far-reaching and long-lasting. During Infrastructure Week, we bring together the public and private sector to encourage lawmakers to highlight innovation and leadership, think long-term, and invest in infrastructure at the federal, state and local level.”
