Annual Water Quality Consumer Confidence Report (CCR)

The City is happy to announce that we, once again, provided high quality drinking water in the 2018 calendar year. The CCR is an annual water quality report that requires water suppliers to inform customers where their water comes from, what is in their water, and any violations of standards that may have occurred.

This annual report requirement is mandated by the State Water Resources Control Board, under the Health & Safety Code §116470 and must be submitted to the Division of Drinking Water (DDW) local division office.

The CCR can be found online at www.beverlyhills.org/2018BHwaterqualityreport after July 1, 2019.

New Water Sub-metering Ordinance

On May 7, 2019, the Beverly Hills City Council adopted an ordinance to require installation of individual water meters for all new multi-family residential developments with six of fewer units and require installation of a master water meter and submeters for all new multi-family residential developments with seven or more units. This ordinance will take effect on July 1, 2019.

Beverly Hills is developing an Urban Forest Management Plan

Assessment of wildfire prone areas are the top priority

The City of Beverly Hills (City) has selected vendor to prepare a comprehensive citywide Urban Forest Management Plan (UFMP).

The objectives of this latest project include fire hazard risk assessment and mitigation; a tree inventory assessment; succession planning; a review of policies and procedures related to both public and private trees; a review of current staffing and funding; and public outreach and education.

Efforts will focus on the evaluation of wildfire prone tree species in the northern portion of the City. The outcome will be a report summarizing the wildfire hazard presented by certain tree species present in the urban forest and recommended specific actions to manage and mitigate hazards through tree maintenance practices, removal/replacement strategies for both public and private trees, ordinances restricting planting of certain species, etc. These improvements will directly enhance the safety of designated evacuation routes within the City.

This latest project will support the City Council’s Priorities and maintain the Fire Department’s goal for continued fire safety.
Outdoor Watering Tips For The Summer

Water Efficiency is a Beverly Hills Way of Life. Therefore, the City continues to use water efficiently. To keep your landscape looking healthy, and abide by the City’s Water Conservation Stage C, residents are encouraged to follow these watering guidelines:

1. Two day per week watering (October to May)
   - a. North of Santa Monica – Monday & Friday
   - b. South of Santa Monica – Tuesday & Saturday

2. Three day per week watering (June to September)
   - a. North of Santa Monica – Monday, Wednesday & Friday
   - b. South of Santa Monica – Tuesday, Thursday & Saturday

3. Water after 5:00 pm or before 9:00 am

4. Check sprinklers to make sure they are not broken, clogged or watering the sidewalk instead of the plants

5. Place a back-up battery in the sprinkler controller to save the settings during a power outage

For tips or assistance, visit [www.BHSaves.org](http://www.BHSaves.org) or email AskPW@BeverlyHills.org

SAVE THE DATE

TOO TOXIC TO TRASH

Household Hazardous Waste - September 28, 2019

The City works in conjunction with the County of Los Angeles to sponsor a one-day event in Beverly Hills for the proper disposal of universal waste (motor oil, paint thinner, anti-freeze, varnish, pesticides, batteries and other household hazardous products) and e-waste (computer monitors, televisions, computer CPUs, keyboards, printers and cell phones), as well as expired pharmaceuticals (controlled substances will not be permitted).

**Location:** West Third Street and Civic Center Drive
**Time:** 9:00 am to 3:00 pm

Looking to Upgrade to a Water Wise Landscape?

The City is offering $2 a square foot rebate to remove your grass and replace it with more sustainable landscaping. Thanks to funding from Metropolitan Water District, Beverly Hills’ residential water customers can get up to $5,000 to assist in the transformation of their landscape.

For more details on this rebate or rebates on other water saving devices, visit [www.socalwatersmart.com](http://www.socalwatersmart.com), call Public Works Customer Service 310-285-2467 or email AskPW@beverlyhills.org
