Beverly Hills View: Clean Power Alliance

Tune in and learn how residents and businesses will soon enjoy the advantages of clean, renewable power at competitive rates. Starting this month, Clean Power Alliance (CPA) will be the new electricity provider for the City of Beverly Hills. This unique consortium is a public agency made up of 31 local governments across Los Angeles and Ventura counties working together to bring clean, renewable power choices to communities. CPA purchases clean power and Southern California Edison (SCE) delivers it - nothing else changes. SCE will continue to send just one bill and will be responsible for resolving any issues with electricity service. "We are excited to be part of this innovative opportunity to begin a new era of clean power distribution," said Mayor Julian Gold. "Beverly Hills is committed to sustainability and this new enterprise allows our community to further champion the environment." Monday February 4 at 7:30 pm
