

Water Wise Landscaping & Drip Irrigation

Your most significant water savings can come outdoors, so get started today making changes to your landscaping. The City of Beverly Hills is helping pay for a consultation with a professional landscaper. Fall is a great time to install drought-tolerant plants, drip irrigation and a smart irrigation controller. Learn more at www.bhsaves.org.

Rain Barrels & Rain Gardens

Installing rain barrels or a rain garden is another great way to save water in style! An underground tank of various size options can also be placed under a rain garden. The City of Beverly Hills is helping pay for a consultation with a professional landscaper. Get started today by visiting www.bhsaves.org.
