Subject: Segment 2 - Purple Line Extension Project ICM Weekly Report
September 13, 2020 – September 19, 2020

Dear Mr. Welch and Mr. Comorre:

Environmental Intelligence, LLC (EI) has been retained by the City of Beverly Hills (COBH) and the Los Angeles County Metropolitan Transportation Authority (Metro) to serve as the independent compliance monitor (ICM) during construction of the Purple Line Extension Project. Monitoring is required to ensure that construction is in compliance with the "Memorandum of Agreement for Contract C1120 of the Purple Line Extension Project - Between the City of Beverly Hills and the Los Angeles County Metropolitan Transportation Authority" (Final Version 62). The following information summarizes the ICM monitoring activities that occurred at the Segment 2 site (Rodeo Station site) during the week of September 13, 2020 – September 19, 2020. No work was scheduled or monitored on September 13th or September 19th.

Construction activities during the week included excavating within Reeves Yard and below the deck on Wilshire Blvd.; loading excavated materials into haul trucks within the K-rail closure on eastbound Wilshire Blvd. and removing them from site from site; lowering materials into excavated shaft with the crane; receiving construction material deliveries; work below the deck on Wilshire Blvd. including lagging and welding and general house-keeping efforts through the site. In addition, EI ICMs also monitored geotechnical instrumentation work at various locations on Wilshire Blvd. between Camden Dr. and Willaman Dr. consisting of drilling in support of WRS/Tunnel Geotechnical Instrumentation; building and installing instruments; pouring grout and cleaning the work site. EI ICMs were present during all construction activities and conducted routine noise measurements at selected noise monitoring locations as well as compliance checks in accordance with the MOAs and associated attachments, exhibits, traffic closure notifications, and traffic management plans. At the conclusion of each work shift, daily monitoring reports were prepared by each ICM. Attachment B (*Daily Monitoring Reports*) provides detailed daily monitoring reports and photographs of construction activities.

VIOLATION SUMMARY

During the week, EI ICMs identified one (1) violation during construction activities. Table I provides a summary of the violations identified during the week of September 13, 2020 to September 19, 2020. Exhibit 1 provides a location map for the submitted violations. Details for the violations are included as Attachment A. Daily monitoring reports and photographs of construction activities are provided as Attachment B (*Daily Monitoring Reports*). Daily noise monitoring data are provided in Attachment C (*Noise Monitoring Data Log*).

CONCLUSION

To date, 488 violations have been issued, six (6) of which have been rescinded since the beginning of construction of the Purple Line Extension Project – Segment 2. Please note, no Violation 261 was ever issued, therefore it is skipped in the numbering sequence and is omitted from this count. Project construction activities are ongoing and EI ICMs continue to monitor all construction activities applicable to the MOA on a daily basis.

If you have any questions or comments regarding this letter, please contact me directly at 310.469.8989 or jeremiahgeorge@enviro-intel.com.

Sincerely,

ENVIRONMENTAL INTELLIGENCE, LLC

Jeremiah George
Project Manager
