

HOME HARDENING

WILDFIRE-RESISTANCE: Make the “Right” Choices

① ROOF

Wood shingle

② EAVES

Open | Exposed

③ SIDING

Wood Siding

④ WINDOWS

Single pane
No screens

⑤ MULCH

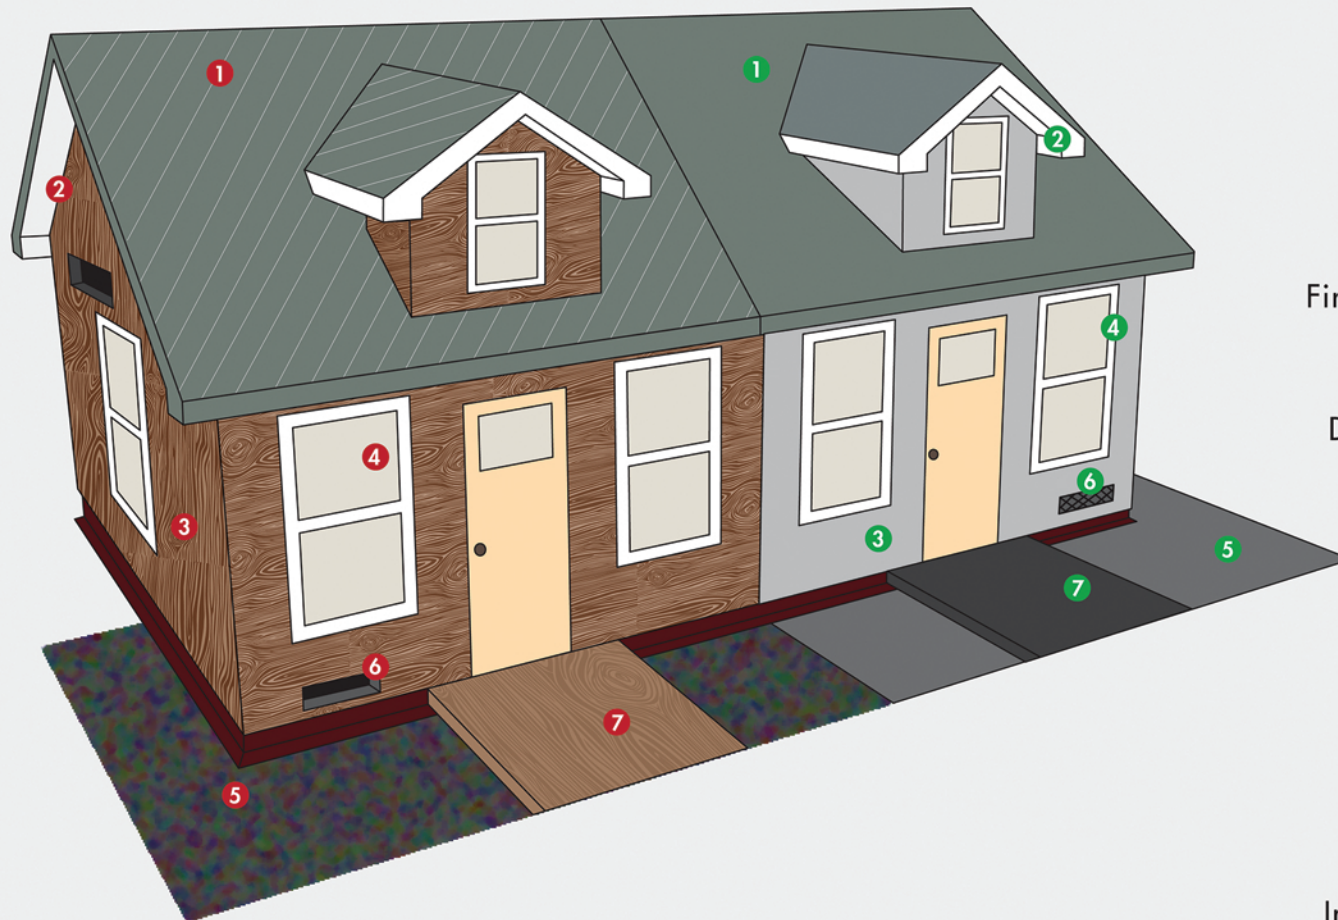

Bark | Wood Chips

⑥ OPENINGS

Non-Protected
Vents | Openings

⑦ DECK

Standard spacing
Combustible material

ROOF ①

Class A
Fire resistive

EAVES ②

Closed | Boxed

SIDING ③

Fire resistive material

WINDOWS ④

Dual-Pane Tempered
Screens

MULCH ⑤

Rock | Pebbles

OPENINGS ⑥

Metal screened
Vents | Openings

DECK ⑦

Increased joist space
Foil-faced bitumen tape
on top of joists
Non-combustible | Fire resistive
