Subject: Segment 1 - Purple Line Extension Project ICM Weekly Report
September 4, 2022 – September 10, 2022

Dear Ms. Chung and Mr. DeMello,

Environmental Intelligence, LLC (EI) has been retained by the City of Beverly Hills (COBH) and the Los Angeles County Metropolitan Transportation Authority (Metro) to serve as the independent compliance monitor (ICM) during construction of the Purple Line Extension Project. Monitoring is required to ensure construction is in compliance with the MOA for Contract C1045 of the Purple Line Extension Project – Segment 1 – Between the City of Beverly Hills and the Los Angeles County Metropolitan Transportation Authority (City Agreement No. 66-16). The following information summarizes the ICM monitoring activities that occurred at the Segment 1 site (La Cienega Station site) during the week of September 4, 2022 – September 10, 2022.

Construction activities during the week included: pouring concrete within the La Cienega yard and N. Gale Dr. closure; pouring slurry within the k-rail closure on Wilshire Blvd.; lowering rebar through the station access within the N. Gale Dr. closure; lifting struts through the appendage bump out closure on Wilshire Blvd. and hauling them from the site; receiving rebar and materials deliveries; installing conduit, vent pipes and rebar; hoisting machinery, debris, material and equipment into and out of the tunnel through the Gale yard; transporting materials and machinery throughout the site; work below deck and within the appendages; clearing debris and cleaning the appendages, yards, closures and below deck. EI ICMs were present on site during all construction activities. ICMs conducted routine noise measurements at selected noise monitoring locations as well as compliance checks in accordance with the MOAs and associated attachments, exhibits, traffic closure notifications, and traffic management plans. At the conclusion of each work shift, daily monitoring reports were prepared by the respective ICM. Any violations for that date were also prepared by the ICM then reviewed and submitted to the COBH and Metro by EI's Project Manager.

VIOLATION SUMMARY

During the week, EI ICMs identified no violations during construction activities. Daily monitoring reports and photographs of construction activities are provided as Attachment A (*Daily Monitoring Reports*). Daily noise monitoring data are provided in Attachment B (*Noise Monitoring Data Log*).

CONCLUSION

To date, 314 violations have been issued, 30 of which have been rescinded since the beginning of construction on the C1045 Contract for the Purple Line Extension Project – Segment 1. Project construction activities are ongoing and EI ICMs continue to monitor all construction activities applicable to the MOAs on a daily basis.
