SPECIAL MEETING
OF THE RESTAURANT SUBCOMMITTEE
OF THE ARCHITECTURAL COMMISSION

City of Beverly Hills
Teleconference / Video Conference Meeting
455 North Rexford Drive
Beverly Hills, CA 90210

Wednesday, April 6, 2022
3:00 PM

Pursuant to Government Code Section 54953, members of the Restaurant Subcommittee of the Architectural Commission and staff may participate in this meeting via a teleconference. In the interest of maintaining appropriate social distancing, members of the public can participate in the teleconference/videoconference by using this link: https://www.gotomeet.me/CBHCD/subcom (no password required), or by phone at 1-866-899-4679 or 1-571-317-3116, Access Code #576-863-781. Written comments may be emailed to commentAC@beverlyhills.org and will be read at the meeting.

SPECIAL MEETING AGENDA

1. Public Comment

2. 251-253 NORTH BEVERLY DRIVE
   SWEETGREEN (PL2200146)
   Request for approval of an architectural review for a construction barricade with lifestyle graphics and window vinyl graphics. Pursuant to the provisions set forth in the California Environmental Quality Act (CEQA), the Restaurant Subcommittee of the Architectural Commission will also consider finding the project exempt from further review under CEQA.

3. 445 NORTH BEVERLY DRIVE
   JENI'S ICE CREAM (PL2200145)
   Request for approval of an architectural review to allow modifications to the façade, outdoor dining area and awning, and a Business Identification Sign and a construction barricade with lifestyle graphics. Pursuant to the provisions set forth in the California Environmental Quality Act (CEQA), the Restaurant Subcommittee of the Architectural Commission will also consider finding the project exempt from further review under CEQA.

4. 9601 SOUTH SANTA MONICA BOULEVARD
   SHAKE SHACK (PL2100183)
   Request for approval of an architectural review for revisions to a previously approved Sign Accommodation. Pursuant to the provisions set forth in the California Environmental Quality Act (CEQA), the Restaurant Subcommittee of the Architectural Commission will also consider finding the project exempt from further review under CEQA.
5. Adjournment

Mark Odell, Urban Designer

Posted: April 4, 2022

Pursuant to the Americans with Disabilities Act, the City of Beverly Hills will make reasonable efforts to accommodate persons with disabilities. If you require special assistance please call (310) 285-1126 (voice) or (310) 285-6881 (TTY). Providing at least forty-eight (48) hours advance notice will help to ensure availability of services.
PROPOSED BARRICADE GRAPHICS

A-19
The latest evolution in solar control low-e glass, Solarban® 90 glass combines major advances in coating technology with the aesthetic appeal of clear glass. Due to its exceptional solar control performance, Solarban® 90 glass delivers enhanced clarity and is available with the full range of Solarban® solar control low-e coatings.

Solarban® 90 glass is a high-performance, low-iron advanced solar control low-e glass with the appeal of a true neutral-reflective clear glass aesthetic. Solarban® 90 glass is engineered with new enhancements and refinements to Vitro’s proven triple-silver coating technology to offer architects a product that outperforms Solarban® 70 glass while balancing visible light transmittance and helping to manage glare. The coating can also be paired with, or used directly on several Vitro tinted glasses in an insulated glass unit.

When paired with clear glass in a standard one-inch insulating glass unit (IGU), Solarban® 90 glass offers a U-value Improvement (SHGC) of 0.23, an improvement of 15 percent compared to Solarban® 70 glass. The same pairing yields a Visible Light Transmittance (VLT) of 51 percent, which fits well within the ideal range of most commercial glazing applications, along with an exceptional Light to Solar Gain (LSG) ratio of 2.02.

Sustainability: Vitro Architectural Glass is the first U.S. float glass manufacturer to have its entire selection of products recognized by the Cradle to Cradle® Certified™ program, and the first in North America to publish third-party verified Environmental Product Declarations (EPDs) for its Flat Glass and Processed Glass products.

 qualidade de materiais, com um desempenho excepcional.

O modelo Solarban® 90 é um avanço na tecnologia de revestimento solar, com excelente desempenho de controle solar e uma aparência visualmente agradável.

O Vidro Solarban® 90 combina avanços significativos em tecnologia de revestimento com o apelo visual das janelas de vidro transparentes.

Solarban® 90 glass is a high-performance, low-iron advanced solar control low-e glass with the appeal of a true neutral-reflective clear glass aesthetic. Solarban® 90 glass is engineered with new enhancements and refinements to Vitro’s proven triple-silver coating technology to offer architects a product that outperforms Solarban® 70 glass while balancing visible light transmittance and helping to manage glare. The coating can also be paired with, or used directly on several Vitro tinted glasses in an insulated glass unit.

When paired with clear glass in a standard one-inch insulating glass unit (IGU), Solarban® 90 glass offers a U-value Improvement (SHGC) of 0.23, an improvement of 15 percent compared to Solarban® 70 glass. The same pairing yields a Visible Light Transmittance (VLT) of 51 percent, which fits well within the ideal range of most commercial glazing applications, along with an exceptional Light to Solar Gain (LSG) ratio of 2.02.

The sustainability of Solarban® 90 glass is demonstrated through its certification as a Cradle to Cradle Certified™ product, making it the first in North America to receive this recognition. For additional information and documentation, visit Vitroglazing.com/LEED.

**Item details**

**Aesthetic details**
- **Product kind:** relief painted tile
- **Color code:** 4104  
- **Finish:** white  
- **Size:** 36 x 36 inch  
- **Surface pattern:** matt  
- **Color code:** 4104  
- **Finish:** white  

**Technical details**
- **Foot print:** 91.44 sq inch  
- **Age resistance:** 5  
- **Light reflection value:** 40%  
- **Finish:** white  
- **Manufacturing size:** 35.31 x 35.31 inch  
- **Thickness:** 0.51 inch  
- **Rectified:** yes

**Core Collection Quartz**

- **Color code:** 4104  
- **Finish:** white  
- **Size:** 36 x 36 inch

**Description**

Lanterra 9003-W1 (Up or Down) and 9003-W2 (Up and Down) are 3.25” Lumiere 8 x 36 inch fixtures with dimmable LED. The fixtures consist of a tempered glass lens, factory sealed with high temperature silicone O-ring, to prevent water intrusion and breakage. The luminaire also comes with various beam optics. It also comes with various LED drivers such as integral drivers, all of which can be used with the same fixture. Specifications and dimensions subject to change without notice.

**Certification Data**

- **LM79/LM80 Compliant**
- **EEMC Directive 2012/19/EU**
- **CE Marked**
- **Energy Efficiency Classes:** A++ to D
- **Wet Location Listed - IP66**
- **Applicable Standards:** IEC 60598, IEC 60033-1, IEC 60079-14, IEC 60518, IEC 60529
- **Product Category:** CYLINDER FLOOD LIGHT
- **Approval:** USA: cETLus, UL2201, CYLINDER, FLOOD LIGHT, 20W LED, L70/150,000@25°C, **CT2**
- **Warranty:** Lumiere warrants the Lanterra series of fixtures against defects in material and workmanship for five (5) years.
**RUSTICSERIES™ LAP SIDING**

**General Description:** Allura Fiber Cement siding is available in different products providing both traditional and contemporary aesthetics. It is suitable for residential and light commercial applications.

**Lap Siding**  
5 1/2" (139mm) x 12" (365mm)
