Water Capacity Fee Calculations

The water meters do not include any new meter which is installed solely in connection with any fire suppression system and no water capacity charge shall be made based solely upon the installation or modification of any fire suppression system. The water capacity charge for a combination domestic/fire meter shall be based solely on the domestic use, however, the connection fee (for making the physical connection) shall be based on the size of the combined meter to accommodate the total domestic and fire flow through the meter per AWWA and City's standards.

For a residential or commercial project that requires a new connection to the City's water system, the water capacity charge shall be based on the size of the water meter for the connection as follows:

Fee Name	Reference	Fee Applies To	Fee Amount	Per	Notes
Residential or Commercial - 1" Displacement		All	14,912.00	Meter	
Residential or Commercial - 1.5" Displacement		All	29,824.00	Meter
