### **Councilmember Brien Accepts Prestigious Job at Houston Medical Center**

Beverly Hills, Calif – The Honorable City Council member William W. Brien, M.D. has accepted a prestigious post at CHI St. Luke's Health–Baylor St. Luke's Medical Center (Baylor St. Luke's) as its Vice President of Medical Operations and Chief Clinical Officer. In this role, he will oversee all aspects of physician performance, quality and clinical integration at the hospital. Dr. Brien will also serve as Executive Sponsor of the CHI Texas Division Orthopedic Service Line.

"As a friend and colleague, I am sad to see Willie leave Beverly Hills," said Beverly Hills Mayor Julian Gold, M.D. "His intelligence, his vision and his leadership skill will be greatly missed. Baylor St. Luke's is very fortunate to be gaining a skilled medical professional and an outstanding manager."

The City's Municipal Code requires that City Council vacancies be filled by holding a special election and the City Council will be setting a date for this election within 30 days after the vacancy occurs.

Dr. Brien joins Baylor St. Luke's from Cedars-Sinai Medical Center in Los Angeles, where he served as Professor and Executive Vice Chairman of the Department of Surgery and Director of Orthopedic Surgery.

"Dr. Brien's experience as a surgeon, coupled with his vast leadership skills, will be instrumental in aligning our medical staff together for continued success," said Wayne Keathley, President, Baylor St. Luke's Medical Center. "He will be vital in providing the clinical, strategic, and cultural leadership necessary to implement key strategic initiatives that will maximize clinical operations at the hospital."

Dr. Brien is a former Chief of Staff at Cedars-Sinai, and has served on the Board of Directors and numerous Cedars-Sinai executive committees, including the Medical Executive Committee. Prior to Cedars-Sinai, he served as Vice Chief of Orthopedics at Los Angeles (LAC) + University of Southern California (USC) Medical Center.

“Given academic and research partnerships with Baylor College of Medicine and Texas Heart® Institute, this is an exciting time to join the Baylor St. Luke’s family,” said Dr. Brien. “I look forward to dedicating my service to medicine and the Greater Houston community with the same passion and commitment I’ve displayed at Cedars-Sinai and Beverly Hills for the past several years.”

Dr. Brien is the recipient of numerous honors and awards, including the Rancho Los Amigos Research Award, the Philip D. Wilson Research Award at the Hospital for Special Surgery/Cornell University, and the Otto Aufranc Research Award from the Hip Society. Previously, he served on the Board of Councilors for the American Academy of Orthopedic Surgeons and is currently the President of the California Orthopedic Association.

He earned a medical degree from the University of California, Los Angeles and is a graduate of the University of Southern California. He completed his residency in orthopedic surgery at the LAC/USC School of Medicine and his fellowship in Adult Reconstructive Surgery at the Hospital for Special Surgery. Dr. Brien was an Assistant Professor of Orthopedic Surgery and Director of the Joint Replacement Program at USC and was an Associate Clinical Professor of Orthopedic Surgery at the University of California, Irvine.

Dr. Brien has dedicated the last 20 years to public service. He was twice elected to the City Council of Beverly Hills, is a current council member and former Mayor. He is a past President of the top ranked Beverly Hills Unified School District as well as a past State of California Health Policy Commissioner. He currently is a board member representing Beverly Hills on the Westside Cities Council of Governments.
