The City has contracted with PCI to repaint traffic lane lines, crosswalks, and pavement markings throughout the City. The project awarded to PCI on February 18, 2020. The project is intended to improve marking visibility and safety. Be on the lookout for the newly repainted markings in your neighborhood.

Go Paperless
As a Department that promotes sustainability and as we continue to build our readership, our goal is to eventually distribute the newsletter electronically only. We encourage you to subscribe to the following link and opt-in by selecting the Public Works Newsletter for the electronic version. The electronic newsletters allow the City to share more information while reducing paper production. www.beverlyhills.org/enotice

Proposed Solid Waste Rate Adjustments
The City of Beverly Hills is beginning an extensive community outreach campaign to present the proposed Solid Waste Rate Adjustments that City Council will consider in late October.

The City’s solid waste service charges have remained the same since 2011, despite the addition of State mandated programs for organics processing and several escalations in the price of landfill disposal and recycling and organics processing. The Proposed Rate Adjustments will help address: 1) Increasing costs for solid waste operations, including Athens rate increase, material processing, organics food waste and yard waste collection, and increases to landfill dumping fees; 2) Shrinking markets for recyclable commodities; and 3) Costs associated with implementing new State mandated programs.

The City continues to look for opportunities to reduce costs and minimize rate increases for customers, while softening the impact to customers which rate increases may present. In this regard, rate adjustments are not due to take effect until July 2021. Furthermore, the City will use some funds available from reserves to offset some of the revenue requirements and keep rates as low as possible. The Proposed Rate Adjustments will ensure sufficient revenues are available to provide high-level solid waste services to all customers in the City.

If you have any questions, we invite you to attend one of two virtual Town Hall meetings on Thursday, October 1, 2020 and Tuesday, October 20, 2020 at 6:00 p.m. You can also attend the virtual Public Works Commission meeting on Thursday, October 8, 2020 at 8:00 a.m. The City Council will consider the Proposed Rate Adjustments at the public hearing scheduled for Tuesday, October 27, 2020 at 7:00 p.m. Please visit www.beverlyhills.org/solidwasterates for additional information.

Citywide Pavement Marking Project
The City has contracted with PCI to repaint traffic lane lines, crosswalks, and pavement markings throughout the City. The project awarded to PCI on February 18, 2020. The project is intended to improve marking visibility and safety. Be on the lookout for the newly repainted markings in your neighborhood.
**Save Energy and Money**

Description: The City of Beverly Hills is collaborating with Southern California Edison and SoCal Gas through the West Side Energy Partnership to help the City achieve its energy reductions goals and save money. The City and West Side Partnership encourages citizens to reduce energy use as a means to lowering utility bills and helping the environment. For more information on energy programs, assistance programs, and additional resources visit our website at [www.beverlyhills.org/saveenergyandmoney](http://www.beverlyhills.org/saveenergyandmoney).
