Dear Beverly Hills Community,

Whether blessing or curse, the proverb “may you live in interesting times” encapsulates life in this our current moment. Despite the challenges that face us, I am still so thrilled to be here with all of you in this beautiful community. Thank you for this incredible opportunity to serve you & for welcoming me so warmly into this amazing community of caring, compassion & creativity! Though many of our public facilities remain closed during this unprecedented public health crisis, we in your Community Service Department remain hard at work in order to bring you an array of exciting summer time offerings – whether online or onsite – we aim to keep you active, engaged and nourished - mind, body & soul!

Here are some highlights of the exciting programs & services coming your way this Summer 2020:

• **Preschool at Home** as we continue to provide our popular preschool program with early childhood education, enrichment, arts & crafts and social engagement activities to our little ones!

• New online summer camp offerings of some of our most popular specialty camps while we stay safe & shelter at home include: Asteme Math & Science, Engineering with Legos, and Bizzy Girl Entrepreneurship camps.

• Exciting virtual online **Camp Beverly Hills & Catskills West**. Both camps have created exciting webpages for easy access for children to engage in and will be offering a mix of virtual programming as well as pre-recorded activity links for children to engage on their own, see Catskills Summer Camp video introduction for this summer!

• Coming soon – all new **CAMP CREATE** - explore the arts, nature & specialty experiences as a la carte online offerings or join us for the full camp option with some of the best instructors in CA!

• Our new Virtual Community Service Initiative, **Artmake, Recreate and Library in Place**! and CS website, CommunityLifeBH, provides over 100 online resources to support our local community - body, mind, and spirit. These online resources are being refreshed every three weeks with Edition 4 slated to launch on June 1st!

• In collaboration with BHTV, the CSD has introduced **new video & virtual programming** as we move senior & adult fitness, health & wellness, arts & culture classes and special “fan-free” events on to local cable BHTV Channels 10 & 35, online via our new Virtual CS website, CommunityLifeBH, and via livestream on our social media platforms including Facebook, Instagram, Twitter and our new CS VIMEO & YouTube Channels.

• **Beverly Hills Beautiful**, our fun new community engagement projects for all ages & the entire community. Each week, we provide two unique projects under the themes - We Create Community & Art is Life - to keep everyone connected, engaged, lift up local spirits & celebrate civic pride!

• New BHPL **Virtual Summer Reading Club** – this summer no registration required, all materials posted online for folks to print at home & Bingo Card Challenges for Tweens, Teens & Adults!

• And if you, or someone you know, should need support, please contact our CS Human Services at (310) 285-1078, by email at humanservices@beverlyhills.org or via the City’s Help Request Form, beverlyhills.org/helprequest.

We’d also love to hear your feedback on our current offerings & services, and your ideas for new programs & events you’d like to see offered in the near future!

As we create this community together, we are going to need your help. How can we best serve you & the community during this crisis? This is what public service means to us and as your Community Services Department, we are here for you to help build a strong community of support, caring and creativity!

All my best,

Jenny Rogers, Director

Pilates is a total body physical fitness system that engages the body and mind through a series of exercises that blend strength and flexibility. We work all the major muscle groups of the body, emphasizing the core muscles and the smaller accessory muscles, thus creating a long, lean physique without adding bulk. Other benefits include increased body awareness, improved posture, a stronger core, and relief from back pain. Instructor: Allison Bragard. 7 weeks.
