Public Works Commission
November 10, 2021
• Public Works Commission: September 9
• Planning Commission: September 9
• Design Review Commission: October 7
Concerns

• Loss of palms and associated identity/economic benefits
• How will plan affect the long-term look of the City
• Can the plan be a resource to private property interests
City of Beverly Hills
North Carson Road Oleander Street Tree Master Plan Ballot

Name: __________________________
Address: _______________________

Solution Model Selection (please choose only one of the selections)

☐ 1. Remove Oleander trees, replace with 12 foot tall Mexican Fan Palms.
   
   *If selecting this model, your ballot is complete.

☐ 2. Remove Oleander trees, replace with hardwood canopy tree.
   
   *If selecting this model, choose one hardwood canopy tree type below:
   
   ☐ Podocarpus/Penn Pine
   ☐ Crape Myrtle

Thank you for returning your ballot in the attached self-addressed envelope by March 1, 2008.
STREET TREE MASTER PLAN PROCESS

Follow the process in place for two decades:

1. Problem identification/documentation
2. Publicly noticed initial discussion with Commission
3. On the street meeting with public
4. Development of master plan elements
5. Balloting requiring more than 50% participation by affected addresses
6. Balloting outcome recognized by Commission
7. Commission supported City Council approval of Street Tree Master Plan phase
8. Plan implementation
UFMP RECOMMENDATIONS

• Incorporate input from Commissions and City Council into final document
• Individual Departments review and implement plan recommendations accordingly
• Increase Urban Forestry Arborist support for private property and development efforts
UFMP RELATION TO SUSTAINABILITY

- Integrated Water Resources Master Plan (IWRMP)
