REQUIREMENTS

1. Detail all structures located on the property e.g. building structures, detached garage, accessory buildings (storage building, laundry, cabana, etc.), and pool.
2. Provide a plot plan detailing all structures located on the property. Unit numbers should be specified on plot plan for each detached structure.

DEFINITIONS

Property Address: The property address is the address number associated with the land where the building structure is located.

Plot Plan: A building plot plan generally details the number and location of the building(s) on a particular property, including its relationship to the street(s), alley, and any other pertinent information.

Directory: The directory is a listing of all Occupant/Unit addresses located in the main building structure.
