Hillside R-1 Permit
Planning Review Application

Application Overview:
Before submitting a request for a Hillside R-1 Permit, the Applicant should thoroughly review this application, as well as the Beverly Hills Municipal Code (BHMC), available online at www.beverlyhills.org/planning (click on “Zoning Code”). The Applicant should also consult with City staff that will be involved in reviewing and processing the application, primarily in the Community Development Department. Electronic copies of all Planning Review Applications are available on the City’s Planning Division webpage at www.beverlyhills.org/planningapplications.

Application Table of Contents:
There are six (6) parts to this application. Each section must be completed in its entirety, and all requirements must be met in order for this application to be accepted for filing.

- Section 2 – Property Information & Project Description
- Section 3 – Owner Authorization & Applicant Team Contact Information
- Section 4 – Supplemental Questions
- Section 5 – Public Notice Requirements
- Section 6 – Submittal Requirements & Checklist

Filing Fee:
See current Planning Department Fee Schedule here: www.beverlyhills.org/planningapplications or call Community Development at (310)-285-1141.

Staff Contact Information:
If you have questions about this application, please call (310)-285-1141 and ask to be directed to Current Planning, or visit the following website for staff contact information: www.beverlyhills.org/contactplanning.
Section 1 – Property Information & Project Description

A. Property Information
   Project Address: ________________________________________________________________

   Legal Description of Property: ________________________________

   ___________________________________________________________________________

   Adjacent Streets: ____________________________________________________________ Lot

   Area: ______________ (square feet) Assessor Parcel Number(s): ______________________

   Existing Use: __________________________________________________________________

   Existing Height: ______________ Existing Paving Area: ______________ (square feet)

   Existing Floor Area: ______________ (square feet) Existing FAR: _______________

   Existing Setbacks from Property Lines:

   Front: ______________ Side(s): ______________, ______________ Rear: ______________

B. Project Information:
   Proposed Use: ________________________________________________________________

   Proposed Height: ______________ Proposed Paving Area: ______________ (square feet)

   Proposed Floor Area: ______________ (square feet) Proposed FAR: _______________

   Proposed Demolition: Yes  No  □ If yes, describe: ________________________________

   Proposed Setbacks from Property Lines:

   Front: ______________ Side(s): ______________, ______________ Rear: ______________

C. Grading Information:

<table>
<thead>
<tr>
<th>Existing Level Pad Size: ________________</th>
<th>Proposed Level Pad Size: ________________</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cubic Yards of Cut: _____________________ (TOTAL)</td>
<td></td>
</tr>
<tr>
<td>Under Building Footprint: _______________ CY</td>
<td>Outside Building Footprint: ______________ CY</td>
</tr>
<tr>
<td>Cubic Yards of Fill: ____________________ (TOTAL)</td>
<td></td>
</tr>
<tr>
<td>Under Building Footprint: _______________ CY</td>
<td>Outside Building Footprint: ______________ CY</td>

</tbody>
</table>

1 Legal Description Requirements:

The legal description must include the lot, block, and tract name/number of all contiguously owned parcels (even if the parcels are not a part of the proposed project), and should be based on a Title Report, Grant Deed, or survey from a licensed engineer.
D. Identify the site's zoning designation (City Zoning Map: http://gis.beverlyhills.org/):

________________

E. Describe the existing conditions of the subject site (i.e. existing structures, landscaping, and present use):

F. Were any existing structures on the property designed by a Master Architect or are any identified on any historic resource inventory, including the City of Beverly Hills Historic Resource Inventory? (see list of Local Master Architects here: www.beverlyhills.org/historicpreservation)

Yes □ No □ If yes, please list the architect(s):______________________________

Please contact the Historic Preservation Group at (310)-285-1141 for more information.

Have you spoken with the Historic Preservation staff? Yes □ No □

G. Are any trees on the property located between the house and any public street proposed to be removed? Yes □ No □ If yes, please list the circumference of any tree(s) proposed to be removed, measured at 4'-6" above the natural grade.

Note: A tree is protected if it is located in an area on the property between the house and any public street, and is on the City's list of local native trees, and has a circumference of 24 inches or more, or is not on the list of local native trees but has a circumference of 48 inches or more. See www.beverlyhills.org/protectedtrees and BHMC §10-3-2900 for more information.

Are any of the trees on the property (regardless of type) part of an existing Urban Grove (Urban Grove: fifty or more trees where the branches of each tree are within 6 feet of the branches of another tree)?

NOTE: Each protected tree on the property must be clearly labeled on the site survey and site plan for the project. Please include the dimension of each tree (circumference measured 4-feet, 6-inches above the natural grade). If you are proposing removal or relocation of trees in the public right-of-way, please contact the City Arborist at (310)-285-2540 for a letter of authorization, and attach the letter to this application.
Section 2 – Owner Authorization & Applicant Team Contact Information

A. Property Owner Information:

Name(s):  
Address:  
City:  State & Zip Code:  
Phone:  
E-Mail:  

Ownership Information Requirements:
In order to verify that the property owner has given consent to file this application, the following documentation must be submitted at the time of filing.

- **Grant Deed** – This is required if the Los Angeles County Assessor’s Records do not match the current ownership as listed on the application. The deed information should match the property owner as listed above.
- **Letter of Authorization** – This is required if the property owner does not sign the application. The property owner may instead provide a signed and dated letter in lieu of their original signature on this form, which must authorize the signatory of this application. Please see Letter of Authorization Example attached to this application.
- **Ownership Entity Documentation** – This is required if the property is owned by an entity rather than an individual. Please provide the applicable required documentation for the type of ownership entity, as shown in the table below.

<table>
<thead>
<tr>

Property Owner Signature:

Choice of Law. This document shall be deemed to have been made in the State of California and shall be construed, and the rights and liabilities of the parties determined, in accordance with the laws of the State of California.

I hereby certify under penalty of perjury under the laws of the State of California that I am the owner(s) of the subject property, or have been authorized to sign on behalf of the property owner, and consent to the filing of this application on the above-referenced property.

Executed on this __________ (Day) of __________________________ (Month) of 20_____

(Year) in __________________________ (City), ________________ (State).

Dated: ____________________________ BY: ____________________________  (Signature)

________________________________ BY: ____________________________  (Printed Name)

(Title, Company)

Additional Owner Signature (if applicable):

Dated: ____________________________ BY: ____________________________  (Signature)

________________________________ BY: ____________________________  (Printed Name)

(Title, Company)

Please indicate the role of the signatory(ies) above:

Owner  ☐  Applicant  ☐  Agent/Representative  ☐  Architect  ☐

If the owner did not sign above, is a Letter of Authorization provided*?

Yes  ☐  No  ☐

*Please note that a Letter of Authorization is required when the property owner does not sign this application, but instead has another individual sign on their behalf. See Letter of Authorization Example at the end of this application for reference. Please also note that if this application will be heard by the Planning Commission or City Council, the property owner will be required to record a Covenant & Agreement to accept the conditions of approval, if applicable.
B. Applicant Information [Individual(s) or entity benefiting from the entitlement]

(Only provide if different from Property Owner)

Name(s): 

Address: 

City: ___________________________ State & Zip Code: ____________

Phone: 

E-Mail 

C. Representative Information [Individual acting on behalf of the Applicant]

Name(s): 

Company/Firm: 

Address: 

City: ___________________________ State & Zip Code: ____________

Phone: 

E-Mail 

D. Architect/Design Team Information [If applicable]

Name(s): ___________________________ Registered Architect? Yes ☐ No ☐

Company/Firm: 

Address: 

City: ___________________________ State & Zip Code: ____________

Phone: 

E-Mail 

E. Please indicate who will be the main point of contact for the project:

Owner ☐ Applicant ☐ Representative ☐ Architect ☐
### Section 3 – Supplemental Questions

#### Have you completed Concept Review for this project?  
Yes ☐  No ☐

If yes, please attach a copy of the concept review letter to this application.

#### Please indicate the reason for the Hillside R-1 Permit request, pursuant to BHMC §10-3-2550:

| ☐ | A: Import and Export of Material: To allow the import/export of earth material to exceed the standards in §10-3-2521, and to establish the total amount of material that may be imported or exported from a site. |
| ☐ | B: Cut and Fill: To establish the total amount of earth material that may be cut from a slope and/or filled on site in excess of that permitted by §10-3-2521. |
| ☐ | C: Game Courts: To allow a paved game court surface within 5 feet of a property line. |
| ☐ | D: Game Court Fences and Lighting Standards: To establish the height of a game court fence and/or lighting standard located in a required side or rear yard setback in excess of the height allowed by §10-3-2517. Notwithstanding these provisions, please note: no game court fence shall exceed 12 feet in height, nor shall any lighting standard exceed 22 feet in height. |
| ☐ | E: Floor Area: To allow the total of the cumulative floor area in combination with the floor area of all basements on site (as measured pursuant to §10-3-2502 B.) to exceed 15,000 square feet. |
| ☐ | F: Large Site Floor Area: To establish a maximum permitted cumulative floor area for all buildings and structures on a site in excess of that allowed by §10-3-2502 on a site that is at least 2 acres. |
| ☐ | G: View Preservation: To establish a maximum building height in excess of 14 feet and minimum setbacks for a site restricted by §10-3-2522, regarding view preservation. Notwithstanding these provisions, please note: in no case shall this permit establish a building height greater than would otherwise be allowed on the site if not limited by §10-3-2522. |
| ☐ | H: Accessory Structures: 1) To allow an accessory structure with a maximum height of 14 feet to be located within 5 feet of a property line; 2) To allow an accessory structure to exceed 14 feet in height when located in a yard area, **AND:** a) its second story meets the required side setback for the primary building on the site, **OR** b) the site area is at least 40,000 square feet in size. Notwithstanding these provisions, please note: no more than one accessory structure over 14 feet in height may be permitted in the side or rear yard areas. |
| ☐ | I: Extension of Side Setback: To allow an extension of an existing nonconforming side setback that exceeds 14 feet in height provided that the existing setback is no less than 3 feet. |
| ☐ | J: Wall Height in Front or Street Side Yard: To allow a maximum 6-foot high wall to encroach into a front or street side yard without complying with the regulations of §10-3-2516 C. |
| ☐ | K: Expansion Off the Existing Level Pad: To allow more than 1,000 square feet of cumulative floor area to be located off the level pad of the site. |
| ☐ | L: Total Maximum Height of Wall, Fence, or Hedge: To allow the height of a wall, fence, or hedge, as measured on the side farthest from the closest property line to exceed the standards in §10-3-2516. |
| ☐ | M: Series of Walls: To allow a series of walls to deviate from the standards set forth in §10-3-2516. |

*See BHMC §10-3-2550 for more information regarding the required findings for each request.*
Please also indicate below any additional planning entitlements are required in connection with the proposed project.
Are there any outstanding Code Enforcement citations on the property?
Yes ☐ No ☐ If yes, please attach copies.

Are there any recorded easements or encumbrances on the property?
Yes ☐ No ☐ If yes, please attach copies. Show easements on survey plan.

Project Description: Explain the overall scope of the project, including other project elements that are not part of the Hillside R-1 Permit Request.
Section 4 – Public Notice Requirements

The public notice requirements for all planning applications are located in the Beverly Hills Municipal Code §10-3-2.5. The Public Notice Guidelines (www.beverlyhills.org/publicnotice) document contains more detailed information about fulfilling the noticing requirements for applications. It is recommended that Applicants reference these Guidelines. The following notice information shall be provided by the Applicant at the time of filing the application for a Hillside R-1 Permit:

RADIUS MAPS

- **Standard Mailed Notice**: Two (2) copies of a map showing a 1000-foot radius around the subject site and number each parcel touched by that radius consecutively. Include all the adjacent lots that the radius line touches.
- **Adjacent Neighbor Mailed Notice**: This radius map is required for the initial filing of the application. Two (2) copies of a map showing a 100-foot radius around the subject site and number each parcel touched by that radius consecutively. Include all the adjacent lots that the radius line touches. See the illustration below (noticed properties are shaded).

RADIUS MAPS:

- Two (2) copies of a map showing a 1000-foot radius around the subject site with the parcels touched by that radius numbered consecutively. Include all the adjacent lots that the radius line touches. Hillside R-1 Permits are only reviewed by the Planning Commission. See the illustration below (Noticed properties are shaded):

![Standard Mailed Notice Radius with numbers shaded](image)

MAILING LABELS

- Two (2) sets of gummed mailing labels and one (1) photocopy set with the names and addresses of all property owners and residential occupants of properties identified in the radius maps. (PROPERTY
OWNER INFORMATION MUST BE OBTAINED FROM THE MOST CURRENT LOS ANGELES COUNTY TAX ASSESSOR’S ROLL

❖ Labels must be dated within 6 months from the date that the mailed notice is sent. The City will require the labels to be updated prior to sending out any public notice if the date of the labels is greater than 6 months. Failure to provide updated labels may result in a delay of public noticing.
❖ Labels must be numbered to correspond to the assigned numbers on the radius map.
❖ Labels must be on 8.5” by 11” self-adhesive sheets.
❖ DO NOT abbreviate city names (U.S. Postal Service Request).
❖ Provide a CD or USB flash drive containing the mailing label information in Excel format.

ADJACENT NEIGHBOR MAILED NOTICE LABELS

❖ Adjacent Neighbor Mailed Notice: This radius map and labels are required for the initial filing of the application. Two (2) copies of a map showing a 100-foot radius around the subject site and number each parcel touched by that radius consecutively. Include all the adjacent lots that the radius line touches. In addition, the applicant must provide pre-paid labels from a private courier service that provides tracking services (such as FedEx or UPS) for all of the owners and residential occupants of properties within the 100-foot radius. An Excel spreadsheet with each address and the associated tracking number provided for the label is also required.

MAILED NOTICE AFFIDAVIT

❖ Completed and signed statement that the labels and maps are complete and current (see Mailing Affidavit at end of application).

POSTED NOTICE AFFIDAVIT

❖ Please refer to the Public Notice Guidelines for information on how to post an on-site posted notice for this application (see Posted Notice Affidavit at the end of the application).
Section 5 – Submittal Requirements & Checklist

Architectural Plans Required:

- A total of three (3) sets of architectural plans are required for initial submittal: two (2) sets at 11”x 17” size, and one (1) set at either 12”x 18” or 18”x 24” size*. *Please note that full-size plan sets (24”x 36”) may be requested by the Planner for initial submittal.
  
  o All plan sets must be stapled, drawn to scale, and legible.
  
  o All plan sheets must include an architect title block, a graphic scale, the owner’s or authorized agent’s name, address, and telephone number, the project address, and a North Arrow.
  
  o The following plans in the checklist must be included in the architectural plan set. Inconsistency between drawings, renderings, materials, etc., will be considered an incomplete submittal. Only complete applications will be accepted for filing.

NOTE: You will be required to submit additional plans (total of 10 sets) once the application is ready for review by the decision-making body. If the proposed project requires multiple applications for separate requests, the submittal requirements of the applications may be combined at staff’s discretion.

† Items marked below with this symbol may not be required for every project, at staff’s discretion. Please consult with City staff whether or not such requirement may be waived for application submittal. In order to request a waiver from any of the requirements listed below, please submit a written request specifying the requirement and the reason it is not applicable to the proposed project.

ELECTRONIC DOCUMENTS:

- Electronic files (pdf) of this completed application and all of the required submittal items outlined in this application shall be provided on a CD or a USB flash drive at the time the application is filed.

TITLE PAGE:

- Date (note: this should be updated for each resubmittal)
- Project Address
- Legal Description
- Scope of Work
- List of Requested Entitlements
- Owner Information
- Applicant Information
- Architect Contact Information
- Agent Contact Information (if applicable)
- Zoning Conformance Table with Required/Allowed/Existing vs. Proposed Development Standards
SURVEY:

- Provide a Topographic survey of the subject property.
- In addition to a topographic survey, the submittal of an American Land Title Association Survey (ALTA) Survey is recommended.
- Must be stamped and signed by a licensed surveyor or licensed civil engineer.
- Contour lines shall be clearly delineated with existing elevation grades noted for each interval. The interval of each contour line shall not be greater than 2’.
  - Show all existing easements or other encumbrances, whether private or public, based on a review of a recent Title Report. Note: If any improvements are proposed over an easement or other encumbrance, it is the responsibility of the Applicant to obtain the necessary approvals and/or modifications to said easement or encumbrance in order to allow improvements in such areas.
- Show survey/boundary markers.
- Show property lines, adjacent public right-of-way, and curb cuts, including widths of these features
- Show utility infrastructure, including utilities located within the adjacent public right-of-way.
- Include Legal Description.
- Show all existing fences/walls/gates. Note the heights of these features, with callouts on the top of wall (T.O.W.) and bottom of wall (B.O.W.) elevation grades.
- Show all existing structures (including pools).
- Show existing paved area.
- Show existing trees, with protected trees clearly marked. Include tree circumference (see §10-3-2900 and www.beverlyhills.org/treeremoval).

TITLE REPORT:

- Provide a Title Report of the subject property.
- The report shall identify all legal instruments that have been recorded against the property.
- A copy of the Grant Deed shall be included.
- When verification that the subject property was subdivided in accordance with state Subdivision Map Act requirements, documentation regarding the chain of title is required.
**SITE PLAN:**
- Show entire parcel (indicate square footage of property) and label all property lines.
- Label & dimension all existing and proposed structures, including perimeter walls/fences/hedges.
- Show all code-required and proposed setbacks. For additions, include the existing setbacks. Indicate location, size, and species of existing trees and vegetation (indicate which are to be removed).
- Indicate location of streets and sidewalks.
- Show location of any public or private easements, curb cuts, and any obstructions in the public right-of-way.
- Show paving square footage (when applicable).
- Show the location of all parking spaces (required parking spaces must be located outside the required front yard setback).
- Show anticipated dedications and/or improvements to the public right-of-way.
- Show the location of any ground-mounted mechanical equipment and required screening.
- Delineate the area of the existing level pad and all proposed level pad areas.

**FLOOR PLANS:**
- Show fully dimensioned existing and proposed floor plans and label each room. Clearly label the proposed bedrooms or rooms that can reasonably be used as a bedroom (note: a room can be considered a bedroom even if it does not have a bathroom and/or closet).
- Show the location of all parking spaces.
- Include a fully dimensioned floor area blocking study drawn to architectural scale to demonstrate floor area calculations. The blocking study should be comprised of measurable blocks and clearly delineate between exempt and non-exempt areas. Please refer to BHMC §10-3-100 for areas that are exempt from floor area calculations (provided in the definition of floor area). Provide measurements for the depth of recessed windows and doors.
- Provide a window and door key which corresponds with the window and door schedule.
- For projects where construction beyond the existing level pad is proposed, provide an exhibit showing the amount of floor area to be constructed beyond the existing level pad area.

**ROOF PLAN:**
- Identify elevation points along roof pitches and slopes of pitches.
- Show the location of any roof-mounted mechanical equipment and required screening.
- Show existing and proposed gutters and downspouts.
GRADING PLAN:
- Must be prepared by a licensed geotechnical engineer or civil engineer.
- Include cut and fill analysis and calculations, including a non-compacted soil estimate with swell factor.
- Include existing level pad analysis showing the existing level pad and slope areas.
- Include a proposed slope analysis showing the existing level pad, proposed level pad, and slope areas.
- Indicate the amount of earth material that will be imported to and exported from the project site. Provide earthwork calculations to indicate the net amount of import or export required.
- Indicate how many cubic yards of the soil to be exported is comprised of bedrock material.

SOILS REPORT:
- Submit a soils/grading report, prepared by a licensed geotechnical engineer.
- Report shall detail the soil composition of project site.
- Report shall analyze soil testing of site to determine the depth of competent material (e.g., bedrock) for pile and foundation embedment/construction.

LANDSCAPE PLAN/ELEVATION (may be subject to compliance with Beverly Hills Water Efficiency standards):
- Indicate type, size, quantity, and location of existing and new plants. (Recommended Species List: www.beverlyhills.org/recommendedtrees).
- Indicate if any protected tree species is proposed to be removed or relocated.
- Provide pictures of the plant species proposed.
- Label the location(s) of any proposed hardscape treatment and provide the area calculations of the hardscape (paving) located within the required front yard area.
- Provide a landscape lighting plan. If there is no lighting proposed, please indicate this on the plans and application.
- Provide cut sheets of any proposed landscape lighting fixtures.
- Provide an elevation that includes the proposed landscaping, to scale, at the time of planting.
- If more than 500 square feet of landscaping area will be altered, complete Landscaping Plans that comply with the City’s Water Efficient Landscaping Ordinance (WELO) shall be required. Additional information WELO requirements can be accessed online: http://www.beverlyhills.org/departments/communitydevelopment/developmentconstruction/singlefamilyresidences/waterefficientlandscaping/

ELEVATIONS/RENDERINGS:
- Provide existing and proposed elevations from all direction (north, south, east, and west)
- Label existing portions of structures to remain and the proposed additions (when applicable). Show all sides of the residence.
- Indicate the height of all existing and proposed structures, as measured from the finish grade of the site.
- Provide details of architectural features (callouts, cut sheets, photos).
- Provide dimensions of windows and doors in a window/door schedule.
- Show the location of exterior light fixtures to scale.
• Provide color renderings as viewed from adjacent public streets and alleys. Note that the rendering must accurately represent the project and must be consistent with the elevations and environs.
• Provide two north-south building sections and two east-west building sections. Show all property lines, code-required setbacks, and proposed setbacks on each section.

SECTIONS:
• Provide architectural and civil sections of the Project. For internal consistency with the set of plans, sections provided on the architectural plans shall also be provided from the same location and direction on the civil plans.
• Provide four north-south site sections and four east-west site sections. Show all property lines, code-required setbacks, and proposed setbacks on each section. Additional sections may be required to verify the maximum height of structures and retaining walls.
• Sections shall indicate the following minimum information:
  • Indicate height of the structure, as measured from the finish grade of the site.
  • Note the height of all retaining walls, as measured from the existing grade or the finished grade, whichever is lower.
  • Note the cumulative height of all retaining walls within 50’ of each other.
  • Indicate the existing and proposed elevation grade of all structures, walls, and existing/proposed grades.
• Existing grade (E.G.) and proposed/finish grade (F.G.) lines shall be shown on all sections.
• Areas for excavation and over-excavation required for the construction of basements, building foundations, retaining walls, piles, grade beams, pools, and any other soil-displacing activities shall be shown on the sections.
• Areas where fill is proposed shall be clearly shown on the sections.

RETAINING WALLS:
• Show the location of all existing and proposed retaining walls on the site plan.
• Indicate the length of all existing and proposed retaining walls.
• Provide a retaining wall section cut every 10’ along the length of the retaining wall(s). Note that these sections must be separate and apart from any other site or building section.
• Show the existing and proposed grade on all sections.
• Indicate the grade elevation at the bottom of wall (B.O.W.) and top of wall (T.O.W.).

DEMOLITION CALCULATIONS (if project involves work to an existing structure): †
• Using existing elevations, provide fully dimensioned demolition calculations drawn to architectural scale that include the existing elevations with the surface area of the exterior building walls and a roof plans noting the area of the existing roof (calculated using plan view). Additionally, the existing elevations and existing roof plan shall clearly indicate the proposed area of demolition (hatched), with the area and dimensions of the demolition areas noted.
• On existing floor plans, show the walls that are proposed for demolition. These must be consistent with the areas identified for demolition on the existing elevations.
• Provide a table that identifies the existing surface areas of each of the existing exterior walls and roof area, the amount to be demolished on each, and demolition percentages for each, as well as a total calculation. If the calculation results in a 50% or greater demolition of the
existing structure, the property must be brought into full compliance with all applicable zoning codes.

VIEW PRESERVATION ANALYSIS
(if new structure and/or addition is greater than 14” in height): †

- An area map that includes the subject property and all residential properties within a 300’ radius, as measured from the boundaries of the subject property.
- The level pad elevation of the subject property and all properties within the 300’ radius. Such level pad elevations must be verified by a licensed land surveyor or engineer.
- Site sections that include the subject property and all properties within the 300’ radius. This may require the preparation of multiple site sections. The site sections must show the outline of the new structure and/or addition on the subject property. Each site section must also include view angles from each property, which are measured at 6’-0” above the finished grade of the pad.

STORY POLE PLAN: †

- The installation of story poles are required for all projects where there may be a substantial view disruption, as determined by a view preservation analysis, or for all projects seeking to exceed height limitations.
- The story pole plan and installation of all story poles shall conform to the City’s story pole policy.

HISTORIC PRESERVATION

- Consultation with the City’s Urban Designer is required prior to project submittal in order to determine if the property/structure is considered to be a local/state/federal historic landmark, a property/structure that involved the work of a local master architect, or any property/structure identified on any of the City’s historic resources surveys.
- Historic Assessment Report (required only if the project involves the demolition of or modification to a local/state/federal historic landmark, a property/structure that involved the work of a local master architect, or any property/structure identified on any of the City’s historic resources surveys)
- If the Urban Designer has determined that the property/structure is not considered a historic resource, documentation must be provided at the time of project submittal indicating that determination. Such determination must be current within six months.

ARBORIST REPORT (required only if proposing to remove protected trees): †

- Provide an arborist report prepared by an individual that is certified as an arborist by the International Society of Arboriculture (ISA) or an individual who is currently listed as a consulting arborist by the American Society of Consulting Arborists (ASCA). At minimum, the report shall include:
  - A complete inventory of all trees within the front yard with information on the tree size, tree species, and whether the tree is considered a native or heritage tree (pursuant to BHMC §10-3-2900). Tree size shall be provided in a circumference measurement that is measured at a height of 4’-6” above natural grade.
  - A site plan showing the location of all trees within the front yard area (the trees shall be keyed to the tree inventory).
  - Clear photographs of all trees.
  - The health of all tree within the front yard area.
For trees that are proposed to be removed, a reason shall be provided for its removal.

For trees that are proposed to be retained, a description of the tree protection methods and the trees tolerance to construction impacts based on its species and health.

A tree replacement plan, if new trees are proposed to replace those that are removed. Such replacement plan shall include the species, box size, photograph, growth rate, and maximum growth height.

CONSTRUCTION TRAFFIC MANAGEMENT PLAN:

- Provide a construction traffic management plan that includes the following information:
  - Construction scheduled for the life of the project (e.g., demolition and excavation, concrete construction, rough construction, finish construction, hardscape/landscape, etc.)
  - Earth material excavation and removal-related traffic (equipment delivery, haul trucks, construction personnel, etc.)
  - Total construction-related trips for the life of the project (please provide a breakdown of trip types.
  - Trip generation summary for each phase of construction (daily trips, frequency of trips, truck size, etc.)
  - Haul route to/from the project site to the City limits.
  - Location and number of flaggers to be stationed along haul route.
  - Information on how and where any cut will be stored on-site.
  - Diagram of on-site construction/haul truck staging.

LOW IMPACT DEVELOPMENT: †

- Provide a Low Impact Development (LID) plan noting the amount of impervious surface on a project site. If a project includes the replacement of 10,000 square feet or more of impervious surfaces, compliance with the City’s LID requirements will be required as of building plan check.

- If applicable, it is recommended that LID features be incorporated into the set of plans for future building plan check review.

- Additional information regarding the City’s LID standards is available online at: http://www.beverlyhills.org/cbhfiles/storage/files/1266023136723167408/ChecklistforLIDRequirementsFINAL(6).pdf

ENVIRONMENTAL DOCUMENTATION:

- Please consult with Planning staff to determine the environmental review required for submittal.

- Categorical exemption forms can be found here: www.beverlyhills.org/planningapplications.
ADJACENT PROPERTIES:

- Show structures on neighboring properties on the site plan or on a separate plan and show distances to any proposed structure or retaining wall.
- Include cross-sections through the site and adjacent properties to show the relationship of the proposal to the adjacent properties’ structures. Indicate heights and distances.

COUNTY OF LOS ANGELES  
CITY OF BEVERLY HILLS  

I, ________________________________, hereby certify that, to the best of my knowledge and under penalty of perjury, the attached Ownership List correctly shows the names and addresses of all persons to whom all property is assessed, as they appear on the most current Los Angeles Tax Assessor’s roll, within the area described on the attached application and for a distance of __________ feet (plus block-face if properties are located in the Central Area of the City) from the exterior boundaries of the property described on the attached application.

I further certify that, if required pursuant to the attached application, the attached Occupants List reflects all residential addresses within __________ feet (plus block-face if properties are located in the Central Area of the City) from the exterior boundaries of the property described on the attached application that are not owner occupied.

I certify under penalty of perjury that the foregoing is true and correct.
