Subject: Segment 1 - Purple Line Extension Project ICM Weekly Report
March 13, 2022 – March 19, 2022

Dear Mr. Welch and Mr. DeMello,

Environmental Intelligence, LLC (EI) has been retained by the City of Beverly Hills (COBH) and the Los Angeles County Metropolitan Transportation Authority (Metro) to serve as the independent compliance monitor (ICM) during construction of the Purple Line Extension Project. Monitoring is required to ensure construction is in compliance with the MOA for Contract C1045 of the Purple Line Extension Project – Segment 1 – Between the City of Beverly Hills and the Los Angeles County Metropolitan Transportation Authority (City Agreement No. 66-16). The following information summarizes the ICM monitoring activities that occurred at the Segment 1 site (La Cienega Station site) during the week of March 13, 2022 – March 19, 2022. No construction activities were scheduled or monitored on March 13, 2022.

Construction activities during the week included implementation of traffic control plans; pouring concrete within the La Cienega yard and appendages; installing vent piping, plumbing, conduit and rebar; hoisting machinery, debris, materials and equipment into and out of the tunnel in the Gale yard; excavating the appendage in the Gale Dr. closure and removing the spoils from the site; receiving materials deliveries; transporting equipment and materials from the tunnel out of the Gale yard and k-rail closure; removing walers from the excavated appendage within the Gale Dr. closure; and general housekeeping activities throughout the site. EI ICMs were present on site during all construction activities. ICMs conducted routine noise measurements at selected noise monitoring locations as well as compliance checks in accordance with the MOA and associated attachments, exhibits, traffic closure notifications, and traffic management plans. At the conclusion of each work shift, daily monitoring reports were prepared by the respective ICM. Any violations for that date were also prepared by the ICM then reviewed and submitted to the COBH and Metro by EI's Project Manager.

VIOLATION SUMMARY

During the week, EI ICMs identified a total of one (1) violation during construction activities. Table I provides a summary of the violation identified during the week of March 13, 2022 – March 19, 2022 and Exhibit 1 provides a location map for the submitted violation. Details for the violation are included as Attachment A. Daily monitoring reports and photographs of construction activities are provided as Attachment B. Daily noise monitoring data are provided in Attachment C.

Environmental
Intelligence, LLC

CONCLUSION

To date, 311 violations have been issued, 19 of which have been rescinded since the beginning of construction on the C1045 Contract for the Purple Line Extension Project – Segment 1. Project construction activities are ongoing and EI ICMs continue to monitor all construction activities applicable to the MOAs on a daily basis.
