In addition to their numerous environmental benefits, trees in the parkway areas along the streets of Beverly Hills are a tremendous asset to residential and commercial communities. Street trees are protected by Beverly Hills Municipal Code (Sec. 5-6.1001) as follows: “It is illegal for parties who are not official representatives or authorized agents of the City of Beverly Hills to prune, remove, make attachment to, or otherwise damage a City street, park or protected tree.” It is a violation of this City code to affix a sign, residence number plaque, mirror, light fixture, etc. to a City tree.

The maintenance and protection of street trees is a shared responsibility between property owners and the City of Beverly Hills. If you feel that a street tree is unheathy, damaged or in need of pruning, please contact the Department of Recreation and Parks Urban Forestry Division at 310.285.2537.

Construction activities can have severe and long lasting effects on the health of trees. Consideration must be given to street trees during a project’s planning stages. Tree loss or damage can have a significant effect on the uniformity and value of a tree canopy along a street. The planning and implementation of any construction project must include the preservation of this important City asset.

Planning and protecting the health of trees during construction is part of doing business in the City of Beverly Hills. This brochure is provided to assist you to avoid endangering City trees during your construction project.

PROTECTING CITY PARKWAY STREET TREES DURING PRIVATE PROPERTY CONSTRUCTION

In addition to their numerous environmental benefits, trees in the parkway areas along the streets of Beverly Hills are a tremendous asset to residential and commercial communities. Street trees are protected by Beverly Hills Municipal Code (Sec. 5-6.1001) as follows: “It is illegal for parties who are not official representatives or authorized agents of the City of Beverly Hills to prune, remove, make attachment to, or otherwise damage a City street, park or protected tree.” It is a violation of this City code to affix a sign, residence number plaque, mirror, light fixture, etc. to a City tree. The maintenance and protection of street trees is a shared responsibility between property owners and the City of Beverly Hills. If you feel that a street tree is unhealthy, damaged or in need of pruning, please contact the Department of Recreation and Parks Urban Forestry Division at 310.285.2537. Construction activities can have severe and long lasting effects on the health of trees. Consideration must be given to street trees during a project’s planning stages. Tree loss or damage can have a significant effect on the uniformity and value of a tree canopy along a street. The planning and implementation of any construction project must include the preservation of this important City asset. Planning and protecting the health of trees during construction is part of doing business in the City of Beverly Hills. This brochure is provided to assist you to avoid endangering City trees during your construction project.
During the design process, please consider the long term effects that construction may have on City trees. Plan activities carefully, as the City of Beverly Hills will seek compensation for any damage to the trees caused by your construction activities.

For any projects that include construction work in the public right-of-way, plans that accurately depict the public right-of-way will need the approval of the Departments of Recreation and Parks and Civil Engineering prior to any permits being issued by the Department of Building and Safety.

All preliminary plans, sketches and drawings should identify all City parkway trees adjacent to the project site. The actual location and canopy diameter of City trees must be shown clearly on the plans.

A City tree protection plan must be included in the initial plan submittal package. The tree protection plan must be approved by the Recreation and Parks Urban Forest Division. If a tree protection zone fence is required, it must be installed and inspected prior to the commencement of any demolition or construction work. These inspections can be arranged by calling (310) 285-2537.

The negative effects of construction may take years to become apparent in the decline of trees. A claim may be filed with you and your general liability carrier should damage become apparent at a later date.

You may wish to retain an International Society of Arboriculture (ISA) Certified Arborist to assist you with your project. Contact information is provided in this brochure.

Do not design projects at the expense of trees.

Maintain the tree protection zone fencing and parkway condition at all times.

Do not allow cranes or other equipment to damage City trees.

A tree protection zone may require that the entire parkway be fenced. Fencing may be of a chain link or flexible configuration, but may not exceed 4 feet in height. Fence installation should be such that lines of sight are maintained so as to avoid any vehicle or pedestrian hazards. A warning sign must be displayed on the street side of the fence. The size of the sign must be no less than 8.5 x 11 inches. The sign must clearly state: “Warning: Tree Protection Zone”. The sign shall clearly list the name and current contact information of the project owner or authorized representative.
