Vehicle Theft Prevention Tips From the Beverly Hills Police Department

- Always lock your vehicle and do not leave valuables inside. No matter how briefly you may be "stepping away."
- Do not leave your keys or keyfob inside your vehicle.
- Keep valuables out of plain sight and preferably not inside the vehicle.
- If you must leave valuables in your vehicle, place them in the trunk. For SUVs and hatchback models, make sure that you pull the trunk cover so that your valuables are not visible through the window.
- Park your vehicle in your garage. If you park in the driveway, make sure it is well lit.
- Make sure that you always lock your vehicle.
