

DISPOSABLE FOODWARE ACCESSORIES CUSTOM BUSINESS SIGNAGE GUIDELINES

The City of Beverly Hills City Council adopted a Disposable Foodware Accessories Ordinance that requires disposable food ware accessories to be made available to customers upon request only. Businesses can comply by placing signs on-premises to inform customers and employees that disposable food ware accessories are available upon request only. To assist businesses, the City has available signs for use. However, businesses may also create their own sign as long as the following guidelines are followed:

- The sign states clearly, "Disposable Foodware Accessories Available Upon Request Only."
- The sign states that "Disposable foodware accessory items include forks, spoons, knives, straws, condiment packets, and other disposable accessory items commonly provided with food."
- The sign is placed on the storefront window or in an area highly visible to customers.
- The City logo is not used for custom signage.
- The signage must fit within an 8.5" x 11" sized paper so it is visible to customers.
