Dear Residents and Business Owners,

The Beverly Hills City Council will receive an update on the Sidewalk and Tree Replacement Project along portions of Robertson Boulevard at the City Council Meeting of February 21, 2023 at 7 pm.

The project, approved by the Beverly Hills City Council, will address overgrown Ficus tree roots and the damage they have caused to sidewalks and building infrastructure.

Following the construction of new sidewalks, the Ficus trees will be replaced with alternating Crape Myrtle trees and Mexican Fan Palms.
