Item Category: Drones			
DJI Mavic 2 Enterprise Dual (BH-3)			
Description	Unmanned Aerial Vehicle (UAV)		
Quantity	1		
Capability	The DJI Mavic 2 Enterprise Advanced is a commercial-grade UAV. It is a battery powered, remote operated device. Its controller allows the operator(s) to control and view live feed from the UAV-mounted cameras. The UAV is able to record video and has approximately 20- 25 minutes of flight time. This UAV has an attachable spotlight, loud speaker, and strobe.		
Life Span	Approximately 5 years		
Manufacturer's Description	The Mavic 2 Enterprise is built on the Mavic 2 flight platform. It is an all-in-one drone solution for industrial applications. It features an extended port to mount DJI modular accessories, and comes with a self-heating battery, 24 GB onboard storage, DJI AirSense, and is compatible with the DJI Pilot mobile app.		
Purpose	 Aerial over watch to assist officers or incident commanders with situations with include but are not limited to: Response to emergency calls Major collision investigations Search for missing persons Crime scene investigations Natural disaster management SWAT, tactical or other public safety and life preservation operations 		
Authorized Use	Authorized operators who have completed the required training and have received a FAA Part 107 Certificate are be permitted to operate the UAV.		
Legal and	It is the policy of BHPD to utilize the UAV for law enforcement		
Procedural	purposes, and in a manner that respects the privacy of our		
Rules	community, pursuant to State and Federal Law.		
Fiscal Impact	Initial Cost: \$3,850 Re-Occurring Costs: N/A Maintenance Costs: Approximately \$500 Year Obtained:2019 How acquired: Department funds		
Training	Operators must have a FAA Part 107 Certificate		
Necessity	Government Code § 7071(d)(1)(A) The UAV provides police personnel with the ability to more quickly respond to emergency calls for service enhancing public safety. The use of UAV allows police personnel to asess potentially dangerous situations from a safe vantage point and can be used to direct police resources on the ground and mitigate the risk of harm to officers		

Public Welfare	Government Code § 7071(d)(1)(B)	and the public. There is no known alternative which could provide the same capabilities. The use of these UAV's positively impact public welfare as they expedite the arrival of police resources at emergency calls for service and improve they promote de-ecalation and appropriate tactics.
Cost Effective	Government Code § 7071(d)(1)(C)	\$3,850 is a reasonable cost for a commercial- grade UAV with a 5 year life span.
Compliance	Government Code § 7071(d)(1)(D)	Each UAV use is recorded on a "Drones as a First Responder" (DFR) and electronically submitted. Use of the UAV has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

	DJI Matrice 30T Combo		
Description	Unmanned Aerial Vehicle (UAV)		
Quantity	1		
Capability	The DJI Matrice 30T Combo w/ Care Enterprise is the <u>DJI</u> <u>Enterprise</u> flagship, weatherproof drone that fits in a backpack. It integrates multiple high-performance sensors into one single camera payload, is controlled with the <u>DJI RC Plus Remote</u> and runs on upgraded <u>DJI Pilot 2 software</u> , which significantly improves the flight experience. The powerful M30T offers the endurance and capability necessary for rugged professional use-cases. Additionally, its size makes it ideal for easy transportation and fast setup. The UAV also includes a 40mm 640x512 30fps thermal imaging camera with measurement accuracy of $\pm 2^{\circ}$ C or $\pm 2^{\circ}$.		
	The DJI M30T allows professionals to fly and perform beyond their immediate surroundings. It integrates smoothly with the new DJI <u>FlightHub 2</u> fleet management cloud-based software and the DJI <u>Dock</u> for collaboration with remote and unattended operations, bringing efficiency innovation to various industries.		
	The M30T model integrates a 48-megapixel 1/2" CMOS sensor- zoom camera with 5x~16x optical and 200x digital zoom, a 12- megapixel wide-angle camera, 8K photo, 4K/30 fps video resolution, and a laser rangefinder which can give the precise coordinates of objects up to 1,200 meters away.		
Life Span	Approximately 5 years		
Manufacturer's Description	The total weight of the M30, which includes two batteries, is 3770 ± 10 g. That's only a little over eight lbs., compared to the Matrice 300 RTK, whose take-off weight is nearly 20 lbs.		
	The Matrice 30 condenses from unfolded dimensions of 470x585x215 mm (LxWxH) to folded dimensions of 365x215x195 mm – that's approximately 18.5x23x8.5 inches to 14.5x8.5x7.5 inches, respectively.		
	Pinned up against the Mavic 3 (approx. 1.7x11x4.2 inches unfolded; 8.7x3.8x3.6 inches folded), its much larger, but still incredibly compact.		
	Due its relatively small size, this drone can easily be carried in a pack, transportable to even the most remote locations.		
Purpose	 Aerial over watch in all weathers to assist officers or incident commanders with situations with include but are not limited to: 7. Response to emergency calls 8. Major collision investigations 9. Search for missing persons

	Brinc LEMUR 2		
Description	Unmanned Aerial Vehicle		
Quantity	2		
Capability	The Brinc LEMUR 2 is an advanced commercial-grade UAV specifically designed for interior use. This UAV is a battery powered, remote operated device. The controller facilitates two-way conversation between first responders and people they need to help through a set of two ultra-sensitive microphones and a small lightweight loudspeaker. The controller allows operators to control the UAV and view live feed from UAV-mounted cameras. Flight time of approximately 30 minutes per battery, depending on weather and flight conditions. Furthermore, the Brinc is equipped with a 4k digital camera with thermal capability for better viewing and range overall but also in low light environments. It is also equipped with a LiDAR sensor which provides a 3D map of the path of the UAV as it flies which can be viewed live, as well as the camera view, within a smartphone application. A new mesh network is also installed in the UAV which allows for a stronger and more sustainable video and control signal.		
Life Span	5 years		
Manufacturer's Description	The Brinc LEMUR is an American-made purpose-built tactical UAV designed to aid special response teams in barricade, hostage, active shooter, and other high-risk situations. Novel battery technology based on proven Lithium-Ion chemistry allows for best in class flight time. Included micro SD card, carbon fiber reinforced propeller ducts enable the drone to bounce off walls and push open doors. Crashes do not end missions with the LEMUR ends up on its back, it can flip itself over and relaunch to finish the mission.		
Purpose	When a legal justification exists to enter a location, the LEMUR provides an aerial interior over watch in support of tactical /critical situations to enhance the safety and efficiency of law enforcement.		
Authorized Use	Authorized operators who have completed the required training shall be permitted to operate the UAV.		
Legal and	It is the policy of the BHPD to utilize UAV only for law enforcement		
Procedural	purposes, and in a manner that respects the privacy of our		
Rules	community, pursuant to State and Federal Law.		
Fiscal Impact	Initial Cost: Initial Cost: \$26,000 (Total cost for 2) Re-Occurring Costs: N/A Maintenance Costs: Approximately \$500 Year Obtained:2022 How acquired: UASI Grant		
Training	FAA Part 107 Certificate. Monthly in-house training		
Necessity	Government Code § 7071(d)(1)(A)The UAV provides visibility to high-risk locations. It is able to enter small, enclosed strucures as well as provide overhead observations. There is		

Public Welfare	Government Code § 7071(d)(1)(B)	no known alternatives which could provide the same visibility to safely access these locations. Without the use of the UAV, officers would have to deploy to high-risk locations which would increase the risk for both the officers and the members of the public.
Cost Effective	Government Code § 7071(d)(1)(C)	\$26,000 is a reasonable cost for 2 commercial- grade UAVs with a 5 year life span. Furthermore, these drones were acquired from federal grant funds at no cost to the City.
Compliance	Government Code § 7071(d)(1)(D)	Use will be recorded on a "Military Equipment Use" Blue Team Entry and electornically submitted. The designated Military Equipment Coordinator will ensure future compliance with this Policy.

Item Category: Drones			
Autel EVO 2 DUAL 640T (Thermal) Enterprise Bundle			
Description	Unmanned Aerial V	/ehicle (UAV)	
Quantity	4		
Capability		clear threats in complex terrain such as dense	
	urban areas, and co	onfined spaces in day or night situations.	
Life Span	Approximately 5 ye		
Manufacturer's Description	The 640T Model features an InfiRay 640x512 radiometric thermal sensor and 8K/48MP visual camera. The Enterprise version features larger carbon fiber arms with bigger, more powerful motors and larger propellers which yield an additional 5-7 minutes of flight time bringing the maximum flight time to 42 minutes . The EVO II Enterprise also has an ADS-B receiver for enhanced awareness of the operators' airspace in addition to encrypted internal and external storage. All EVO II Enterprise Bundles are equipped with Autel's 7.9" 2000-nit Smart Controller for		
	maximum viewing w	when operating.	
Purpose	Training Aerial over watch to assist officers or incident commanders with situations with include but are not limited to: 7. Response to emergency calls 8. Major collision investigations 9. Search for missing persons 10. Crime scene investigations 11. Natural disaster management 12. SWAT, tactical or other public safety and life preservation operations		
Authorized Use	Incident Commander Approval. Authorized operators who have completed the required training and received a FAA Part 107 Certificate are permitted to operate the UAV.		
Legal and		TPD to utilize the UAV for law enforcement	
Procedural Rules	purposes, and in a manner that respects the privacy of our community, pursuant to State and Federal Law.		
Fiscal Impact	Initial Cost: \$38,640		
	Re-Occurring Costs	s: 0	
	Maintenance Costs		
	Year Obtained:2022		
		ipment Replacement Fund (Fund 400)	
Training	FAA Part 107 Certificate. Pilots must complete BHPD in house		
N	initial training		
Necessity	Government Code § 7071(d)(1)(A)	The UAV provides police personnel with the ability to more quickly respond to emergency calls for service enhancing public safety. The use of UAV allows police personnel to asess potentially dangerous situations from a safe vantage point and can be used to direct	

		police resources on the ground and mitigate the risk of harm to officers and the public. There is no known alternative which could provide the same capabilities.
Public Welfare	Government Code § 7071(d)(1)(B)	The use of these UAV's positively impact public welfare as they expedite the arrival of police resources at emergency calls for service and improve they promote de- ecalation and appropriate tactics.
Cost Effective	Government Code § 7071(d)(1)(C)	\$38,640 is a reasonable cost for 4 UAV's with a 5 year life span.
Compliance	Government Code § 7071(d)(1)(D)	Use of the UAV has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Public Welfare	Government Code	and the public. There is no known alternative which could provide the same capabilities. The use of these UAV's positively impact public welfare as they expedite the arrival of police
	§ 7071(d)(1)(B)	resources at emergency calls for service and improve they promote de-ecalation and appropriate tactics.
Cost Effective	Government Code § 7071(d)(1)(C)	\$30,348 is a reasonable cost for 7 UAV's with a 5 year life span.
Compliance	Government Code § 7071(d)(1)(D)	Use of the UAV has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Item Category: T	actical Drones		
	Brinc LEMUR	Tactical Interior Drone	
Description	Unmanned Aerial Ve	ehicle	
Quantity	2		
Capability	The Brinc LEMUR Advanced is a commercial-grade UAV specifically designed for interior use. This UAV is a battery powered, remote operated device. The controller facilitates two-way conversation between first responders and people they need to help through a set of two ultra-sensitive microphones and a small lightweight loudspeaker. The Controller allows operators to control the UAV and view live feed from UAV-mounted cameras. Flight time of approximately 30 minutes per battery, depending on weather and flight conditions.		
Life Span	Approximately 5 yea		
Manufacturer's Description	The Brinc LEMUR is an American-made purpose-built tactical UAV designed to aid special response teams in barricade, hostage, active shooter, and other high-risk situations. Novel battery technology based on proven Lithium-Ion chemistry allows for best in class flight time. Included micro SD card, carbon fiber reinforced propeller ducts enable the drone to bounce off walls and push open doors. Crashes do not end missions with the LEMUR ends up on its back, it can flip itself over and relaunch to finish the mission.		
Purpose	When a legal justification exists to enter a location, the LEMUR		
	provides an aerial interior over watch in support of tactical /critical		
	situations to enhance the safety and efficiency of law enforcement.		
Authorized Use	Authorized operators who have completed the required training shall be permitted to operate the UAV.		
Legal and	It is the policy of the	BHPD to utilize UAV only for law enforcement	
Procedural	purposes, and in a m	nanner that respects the privacy of our	
Rules		t to State and Federal Law.	
Fiscal Impact	Initial Cost: \$26,000		
	Re-Occurring Costs:		
	Maintenance Costs:		
	Year Obtained:2022		
Training	How acquired: UASI Grant FAA Part 107 Certificate. Monthly in-house training		
Necessity	Government Code	The UAV provides visibility to high-risk	
Necessity	§ 7071(d)(1)(A)	locations. It is able to enter small, enclosed strucures as well as provide overhead observations. There is no known alternatives which could provide the same visibility to safely access these locations.	
Public Welfare	Government Code § 7071(d)(1)(B)	Without the use of the UAV, officers would have to deploy to high-risk locations which would increase the risk for both the officers and the members of the public.	

Cost Effective	Government Code § 7071(d)(1)(C)	\$26,000 is a reasonable cost for 2 commercial- grade UAVs with a 5 year life span. Furthermore, these drones were acquired from federal grant funds at no cost to the City.
Compliance	Government Code § 7071(d)(1)(D)	Use will be recorded on a "Military Equipment Use" Blue Team Entry and electornically submitted. The designated Military Equipment Coordinator will ensure future compliance with this Policy.

Item Category: Tactical Drones			
EMAX Tinyhawk III			
Description	Unmanned aerial v	vehicle	
Quantity	8		
Capability	Training drone is designed with similar operating characteristics		
	as the LEMUR tactical drone		
Life Span	Approximately 5 ye	ears	
Manufacturer's		copter, Avan TH Turtle mode-3, Nano 4	
Description		fly time, max distance about 400 meters, small	
	size allows for maneuverability in confine spaces, durable design		
	allows for easy repairs for continued performance. The Tinyhawk		
		outdoors and indoors due to the protected	
Durmaga	props.		
Purpose	Training	wight who have training and paired with a 107	
Authorized Use Legal Authority	certified pilot.	visors who have training and paired with a 107	
Legal and		e BHPD to utilize UAV only for law	
Procedural Rules		oses, and in a manner that respects the privacy	
Trocedural Males		pursuant to State and Federal Law.	
Fiscal Impact	Initial Cost: \$2,132		
r loour impaor	Re-Occurring Cost		
	Maintenance Cost		
	Year Obtained:202		
	How acquired: UASI Grant		
Training	No official training required. However, pilots must have a good		
	understanding of controls and capabilities in order to be effective.		
Necessity	Government Code	Training drones are a necessity in order to	
	§ 7071(d)(1)(A)	provide police personnel opportunities to train	
		with drone equipment without the risk of	
		damaging more expensive equipment and to	
—		ensure proper procedures are followed.	
Public Welfare	Government Code	Without the use of the UAV, officers would	
	§ 7071(d)(1)(B)	have to deploy to high-risk locations which	
		would increase the risk for both the officers	
		and the members of the public. The use of training drones positively impact public	
		welfare by ensuring police personnel are	
		poperly trained in these drones.	
Cost Effective	Government Code	The initial \$2,132 (for 8 drones) cost is	
	§ 7071(d)(1)(C)	negligible. Furthermore, these drones were	
	/	acquired from federal grant funds at no cost to	
		the City.	
Compliance	Government Code	Each UAV use is recorded on a "Drones as a	
-	§ 7071(d)(1)(D)	First Responder" (DFR) and electronically	
		submitted. Use of the UAV has been in	
		compliance with Military Equipment Use	

Policy 706 from May 2022 to present. No
complaint or concerned was received.

Item Category: Third Party Vendor Drones			
	DJI M300 DFR		
Description	Unmanned Aerial Vehicle (UAV)		
Quantity	1		
Capability	The DJI Matrice 300 RTK is a commercial-grade UAV. It is a battery powered, remote operated device. Its controller allows the operator(s) to control and view live feed from the UAV-mounted cameras. The UAV is able to record video and has approximately 20-55 minutes of flight time. This UAV has an attachable camera.		
Life Span	Approximately 5 years		
Manufacturer's Description	The Matrice 300 RTK is DJI's latest commercial drone platform that takes inspiration from modern aviation systems. It offers up to 55 minutes of fight time, advanced AI capabilities, 6 Directional Sensing and positioning.		
Purpose	 Aerial over watch to assist officers or incident commanders with situations with include but are not limited to: Response to emergency calls Major collision investigations Search for missing persons Crime scene investigations Natural disaster management SWAT, tactical or other public safety and life preservation operations 		
Authorized Use	Authorized operators who have completed the required training and have received a FAA Part 107 Certificate shall be permitted to operate the UAV.		
Legal and Procedural Rules Fiscal Impact	It is the policy of BHPD to utilize the UAV for law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to State and Federal Law. Initial Cost: \$0 (actual cost = \$10,000).		
	Re-Occurring Costs: Drones are owned by a vender and leased by Beverly Hills PD. Maintenance Costs: \$800 weekly Year Obtained:2021 How acquired: Department funds		
Training	Tele- operators must have a FAA Part 107 Certificate		
Necessity	Government Code § 7071(d)(1)(A) The UAV provides police personnel with the ability to more quickly respond to emergency calls for service enhancing public safety. The use of UAV allows police personnel to asess potentially dangerous situations from a safe vantage point and can be used to direct police resources on the ground and mitigate the risk of harm to officers and the public. There is no known alternative which could provide the same capabilities.		

Public Welfare	Government Code § 7071(d)(1)(B)	The use of these UAV's positively impact public welfare as they expedite the arrival of police resources at emergency calls for service and improve they promote de-ecalation and appropriate tactics.
Cost Effective	Government Code § 7071(d)(1)(C)	These drones are leased from a third party vendor which is more cost effective than purchasing multiple drones to have continous, uninterrupted service.
Compliance	Government Code § 7071(d)(1)(D)	Use of the UAV has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Item Category: Lo	ng Range Acoustic	Device (LRAD)		
Description		HS LRAD is a high intensity directional acoustic		
2000 p. 1011		e, crystal clear hailing, Notification, and an		
	unmistakable warr			
Quantity	3			
Capability	The LRAD is prima	ary used as a communication device. The LRAD		
	100X ensures voice messages are clearly heard and understood. It			
	is self-contained, portable and has an extended voice broadcast			
	0	600 meters. LRAD's optimized driver,		
		ower efficiency technologies enable the LRAD		
		100X to provide several hours of clear, continuous communication		
	from a single batte	ery charge.		
Life Span	25 years			
Manufacturer's		ble Long Range Acoustic Device hailing tactical		
Description	communications.			
Purpose		blic in the event of emergencies, natural		
		ions, and police incidents (e.g., missing persons,		
		nted suspects/ K-9 deployments, etc.) or to be		
	-	ersal orders during crowd and riot control		
Authorized Use	situations. The LRAD may also be used as a warning tone.			
Autionzeu 03e	The LRAD shall only be used by officers and supervisors trained in its deployment and used in a manner consistent with department			
	policy and procedure.			
Legal and	The LRAD shall only be used for official law enforcement purposes			
Procedural Rules	and pursuant to State and Federal law.			
Fiscal Impact	Initial Cost: \$24,801			
•	Wired Kit: \$2,845			
	Control Box: \$2,933			
	Re-Occurring Costs: average annual cost of approximately \$1,000			
	Year Obtained: 2018			
	How acquired: Equipment Replacement Fund (Fund 400)			
Training	All operators receive training prior to operating the LRAD in the			
Necesity	field. Government Code	The LDAD is only used when standard sound		
Necessity	§ 7071(d)(1)(A)	The LRAD is only used when standard sound		
	3 / 0/ 1(0)(1)(/)	amplification equipment is not sufficient to provide adequate range or capability needed.		
		There is no reasonable alternative that would		
		suffice in the situations where the LRAD is		
		necessary.		
Public Welfare	Government Code	The LRAD is used in situations necessary to		
	§ 7071(d)(1)(B)	address the public. It can also be used as a		
		safe deterrent against hostile crowds or		
		indivduals.		
Cost Effective	Government Code	\$24, 801 is a reasonable cost for a piece		
	§ 7071(d)(1)(C)	equipment with a 25 year life span.		

Compliance	Government Code § 7071(d)(1)(D)	Each LRAD use is recorded on a "Military Equipment Use" Blue Team Entry and electronically submitted. Use of the LRAD has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Item Category: Rol	botics		
		con Robot	
Description	Tactical "Throwbot	t" Recon Robotics	
Quantity	2		
Capability	Throwbot 2 robot is an unmanned machine operating on the ground to enhance the safety of officers and the community. It can be thrown into hazardous situations and is designed to be able to crawl over a variety of terrain, clearing obstacles up to 2" tall.		
Life Span	10+ years		
Manufacturer's Description	The Throwbot 2 (TB2) robot is a throwable micro-robot platform that enables operators to obtain instantaneous video and audio reconnaissance within indoor or outdoor environments.		
Purpose	When a legal justification exists to enter a location, the Recon Robot can be used to remotely gain visual/audio data and clear the interior/exterior locations for possible threats or hazards.		
Authorized Use	Trained operators may use the device at the discretion of the Incident Commander.		
Legal and Procedural Rules	It is the policy of BHPD to utilize a robot only for official law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to State and Federal Law.		
Fiscal Impact	Initial Cost: \$15,500 Re-Occurring Costs: N/A Maintenance Costs: Covered by Warranty Year Obtained:2009-2021 How acquired: Equipment Replacement Fund (Fund 400)		
Training	All operators shall attend a formalized in-house instructional program.		
Necessity	Government Code § 7071(d)(1)(A)	Unmanned ground robots are used for reconnaissance during critical incidents to assist in providing visibility in areas where it would be unsafe to send officers. They can also be used to defuse or move potentially hazarouds items. There is no known alterantive to this system.	
Public Welfare	Government Code § 7071(d)(1)(B)	Without robots, officers would have to deploy into high-risk situations which would increase the risk for both the officers and the members of the public.	
Cost Effective	Government Code § 7071(d)(1)(C)	\$15,500 is the standard cost for this type of equipment with a life span of more than 10 years.	
Compliance	Government Code § 7071(d)(1)(D)	Each robot use is recorded on a "Military Equipment Use" Blue Team Entry and electronically submitted. Use of the robot has been in compliance with Military Equipment	

Use Policy 706 from May 2022 to present. No
complaint or concerned was received.

Item Category: Ro	botics	
		Avatar II
Description	Avatar 2 Tactical F	Robot
Quantity	1	
Capability	enhance the safety detect, reduce and spaces. It has the	nmanned machine operating on the ground to y of officers and the community. It is used to I clear threats in complex terrain and confined ability to manipulate objects with an articulating ophone and loudspeaker for communication.
Life Span	10+ years	
Manufacturer's Description	response teams by dangerous situatio	nances the capabilities of SWAT and tactical y allowing them to quickly and safely inspect ns, there is no longer a need to send personnel ad a chance to assess the situation.
Purpose	When a legal justification exists to enter a location, the Avatar can be used to remotely gain visual/audio data and clear the interior/exterior locations for possible threats or hazards.	
Authorized Usage	Trained operators may use the device at the discretion of the Incident Commander.	
Legal and Procedural Rules	It is the policy of BHPD to utilize a robot only for official law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to State and Federal Law.	
Fiscal Impact	Initial Cost: \$26,266 Re-Occurring Costs: N/A Maintenance Costs: Varies Year Obtained: 2015 How acquired: Equipment Replacement Fund (Fund 400)	
Training	Annual 8 hour trair	
Necessity	Government Code § 7071(d)(1)(A)	Unmanned ground robots are used for reconnaissance during critical incidents to assist in providing visibility in areas where it would be unsafe to send officers. They can also be used to defuse or move potentially hazarouds items. There is no known alterantive to this system.
Public Welfare	Government Code § 7071(d)(1)(B)	Without robots, officers would have to deploy into high-risk situations which would increase the risk for both the officers and the members of the public.
Cost Effective	Government Code § 7071(d)(1)(C)	\$26,266 is the standard cost for this type of equipment with a life span of more than 10 years.
Compliance	Government Code § 7071(d)(1)(D)	Each robot use is recorded on a "Military Equipment Use" Blue Team Entry and electronically submitted. Use of the robot has been in compliance with Military Equipment

Use Policy 706 from May 2022 to present. No
complaint or concerned was received.

Item Category: Mo	bile Tactical Comn	nand Vehicle	
Description	Freightliner M2 Business Class Chassis		
Quantity	1		
Capability	This vehicle is used as a Tactical Operations Command Center		
	and for carrying equipment for the tactical teams.		
Life Span	20 Years		
Manufacturer's	2012 M2 Business	Class 19,501-26,000 GVW, straight Trucks,	
Description	Emergency Servic	es, Tactical	
Purpose	This vehicle is use	d in support of tactical operations based on the	
		nces of a given critical incident, large event,	
		s Center (TOC), natural disaster or community	
-	supporting event.		
Authorized Use		and Tactics Team (SWAT)	
Legal and		HPD to utilize tactical vehicles only for official	
Procedural Rules	•	urposes, and pursuant to State and Federal	
	law.		
Fiscal Impact	Initial Cost: \$254,7		
	5	ts: average annual cost of \$2,814	
	Year Obtained: 2011		
Training	How acquired: Asset Forfeiture funds The driver/operator shall receive training in the safe handling of		
Training		osed training course and in and around the city	
		•	
	streets. Once the operator has shown competence in the vehicle handling, the driver/ operator will drive the vehicle throughout the		
	city with an experienced driver.		
Necessity	Government Code	The Tactical Operations Command Center is	
/	§ 7071(d)(1)(A)	equipped with specific communication and	
		audio-visual devices to assist in the command	
		and control of a critical incident. It stores	
		SWAT operaters equipment, which helps	
		provide for a quicker response to critical	
		incidents. There is no known alternative for	
		the Tactical Operations Command Center	
		which provides the same amount of mobility	
		and support at one location in a quick	
		deployment.	
Public Welfare	Government Code	The Tactical Operations Command Center	
	§ 7071(d)(1)(B)	allows for mobile incident command and use	
		of the Incident Command Systems facilitating	
		for the best possible on scene decision-	
Cost Effective	Government Code	making by key leaders. This highly specialized vehicle has a life span	
	§ 7071(d)(1)(C)	of 20 years and is cost effective.	
Compliance	Government Code	Each Tactical Command Center use is	
	§ 7071(d)(1)(D)	recorded on a "Military Equipment Use" Blue	
		Team Entry and electronically submitted. Use	

of the Tactical Command Center has been in
compliance with Military Equipment Use
Policy 706 from May 2022 to present. No
complaint or concerned was received.

Item Category: Arr	nored Vehicle (Bea	arcat)	
Description	Ford /Lenco Armored Vehicle		
Quantity	1		
Capability	The Bearcat is an armored vehicle that seats 10-12 personnel		
	and can be utilized as a rescue vehicle. It can stop various		
	projectiles, which provides greater safety to citizens and officers.		
Life Span	20 years		
Manufacturer's	2009 Ford F550 10	0,001-14,000 GVW Armored Emergency

COST ENECTIVE	§ 7071(d)(1)(C)	This highly specialized vehicle has a life span	
		of 20 years and has the potential to save human lives.	
Compliance	Government Code	Each Bearcat use is recorded on a "Military	
Compliance	§ 7071(d)(1)(D)	Equipment Use "Blue Team Entry and	
		electronically submitted. Use of the Bearcat has been in compliance with Military	

Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was
received.

Item Category: I	Mobile Command Ce	nter (MCC)		
Description		2016 Freightliner MT-55 Forward Control Chassis		
Quantity	1			
Capability	This vehicle is utilized as a Mobile Operations Command Center to support public safety and local government operations in the field, including but not limited to, incident command, dispatch operations, salvage/recovery and multi-agency support, including mutual aid.			
Life Span	20 Years			
Manufacturer's Description	2016 LDV Model #SS	S34FC-26, 000 GVW		
Purpose	The purpose of the vehicle is to provide support of multi-disciplinary deployments, critical incidents, large-scale events, natural disasters and community events.			
Authorized Use	Department Personn	el		
Legal and Procedural Rules	It is the policy of BHPD to utilize fleet vehicles only for official law enforcement purposes, and pursuant to State and Federal law.			
Fiscal Impact	Initial Cost: \$782,446 (GSA Discounted Price) Re-Occurring Costs: approximate average annual cost of \$10,000.00 Year Obtained: 2017 How acquired: Capital Improvement Project			
Training	A driver/operator shall receive training in the safe handling and deployment of the vehicle on a closed training course, in and around the city streets and on local freeways. Once the driver/operator has shown competence in the handling and deployment of the equipment, the driver/ operator will be qualified to operate the vehicle throughout the city and beyond as required with an experienced driver-trainer.			
Necessity	Government Code § 7071(d)(1)(A)	The MCC is equipped with specific communication and audio-visual devices to assist in the command and control of a critical incident. It provides for mobility, sheltering, logistical support, and power. There is no known alternative for the MCC which provides the same amount of mobility and support at one location in a quick deployment.		
Public Welfare	Government Code § 7071(d)(1)(B)	The MCC allows for mobile incident command and use of the Incident Command Systems facilitating for the best possible on scene decision-making by key leaders.		
Cost Effective	Government Code § 7071(d)(1)(C)	This highly specialized vehicle has a life span of 20 years and is cost effective.		
Compliance	Government Code § 7071(d)(1)(D)	Each MCC use is logged and maintained by Special Projects. Use of the MCC has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Item Category: F	
Description	B & T Semi-Automatic Carbine
Description	Semi-Automatic Carbine 13 Authorized: 20
Quantity	
Capability	The B&T semi-automatic carbine is a compact carbine that uses a standard pistol caliber. It provides excellent handling, accuracy, safety, and low recoil. In conjunction with the Range staff, K9 Unit, and the Crime Impact Team (CIT), we tested numerous weapons platforms in this category from various manufacturers, with the B&T APC9 proving itself to be the clear frontrunner. Several United States military and law enforcement units are deploying this weapon system.
Life Span	Approximately 5 years
Manufacturer's Description	The Advanced Police Carbine (APC) series was designed for the demands of today's police, special forces, and military units around the world. As the hallmark of the B&T line, the APC series represents the ultimate in performance, reliability, and accuracy. The APC family includes the flexible and adaptable APC9/40 & 45/10mm, the rifle caliber APC223/556/300 line, and the ultimate in semiautomatic precision, the APC308. With a comprehensive suite of accessories created specifically for these platforms, the APC series represents a breakthrough in customization and modularity for every operator, and every specialized mission.
Purpose	B&T semi-automatic carbine is used to protect the lives of the public during a potential lethal force circumstance. It is a compact alternative that can be used during high risk surveillance operations and undercover operations. This is the only alternative to much larger and powerful rifle caliber carbines.
Authorized Use	Authorized carriers who have completed the basic training course.
Legal and	It is the policy of the BHPD to utilize the B&T semi-automatic carbine
Procedural	only for law enforcement purposes, and in a manner that is allowed
Rules	by State and Federal Law, and BHPD policy.
Fiscal Impact	Initial Cost: \$49,990 Re-Occurring Costs: NA Maintenance Costs: NA Year Obtained: 2023 How acquired: Operational budget
Training	Initial 24 hours course, quarterly qualifications.
Necessity	Government Code § 7071(d)(1)(A)There is no alternative weapon in class type and size for the preservation of life and deployment in a surveillance or undercover capacity
Public Welfare	Government Code § 7071(d)(1)(B)The equipment will be depolyed in potential lethal force situations in order to protect the public from death or great bodily injury.
Cost Effective	Government Code There are no other alternatives in cost.

	§ 7071(d)(1)(C)	
Compliance	Government Code § 7071(d)(1)(D)	Use will be recorded on a "Military Equipment Use" Blue Team Entry and electronically submitted. The designated Military Equipment Coordinator will ensure future compliance with this Policy.

Manufacturer's		(HC) smoke is discharged through four (4) gas	
Description	ports located on top of the canister. Due to the high metal content, HC smoke is dark in comparison to Saf-Smoke [™] that is utilized in all other Defense Technology® smoke devices (except the Large-Style Maximum Smoke Grenade). It is similar to the military-style grenade and incorporates a steel canister. Designed specifically for outdoor use in crowd management situations, the Maximum Smoke Grenade is a high volume, slow burning device that deploys large quantities of grey-white colored smoke for approximately 1.5 to 2 minutes. The device should be deployed utilizing wind advantage.		
Purpose	To safely resolve critical situations such as crowd control during riotous situations and high-risk tactical operations. It can be utilized as a carrying agent (multiplier) for smaller OC, CN or CS munitions, or for concealing the movement of agency personnel. It may also be used as a distraction to focus attention away from other activities.

Item Category: Ch	emical Agents		
Description		CHAMBER CS GRENADE	
Quantity	48	Authorized: 100	
Capability	Can be hand thrown, launched		
Life Span	5-year manufacture		
Manufacturer's		lameless Grenade is designed for indoor use.	
Description	This grenade's pyrotechnic contents are burned within an internal can that is one of three in this design. The internal combustion allows the chemical-laden smoke to be released through three (3) ports on the outer canister side while safely containing any of the fire-producing properties within the two internal canisters. The fuze is shrouded to further protect surrounding materials from the possibility of fire. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections, but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects.		
Purpose	The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects.		
Authorized Use	SWAT personnel

Item Category: P	epperBall Launcher	
Description		cal Carbine (FTC) launcher
Quantity	2	
Capability	Compact and lightweight, the PepperBall FTC is the industry gold standard for crowd-control and other applications where speed and reliability is a factor. The FTC features a modular design with a rapid feeding loader and firing rate of 10-12 RPS. 13 Cubic inch high pressure air system, compact lightweight design with glass nylon construction.	
Life Span	5 years	
Manufacturer's		pacity, semi-automatic launcher that is perfect
Description	for crowd manageme and accurate, it featu	ent and mobile field force operations. Reliable ires a hopper that can hold up to 180 rounds, a nfiguration and a compact modular design.
Purpose		to launch the various projectiles in less than FTC can deliver in semi-automatic up to 150ft
Authorized Use	Trained sworn perso	
Legal and		PD to utilize the PepperBall Launcher for law
Procedural		es, and in a manner that respects the privacy of
Rules		uant to State and Federal Law.
Fiscal Impact	Initial Cost \$1,300 Re-Occurring Costs: \$1,300 every 5 years Maintenance Costs: \$50/year Year Obtained: 2022 How acquired: Department Funds	
Training	SWAT and less than lethal instructors who have attended the PepperBall Instructor Course/ In-house Training	
Necessity	Government Code § 7071(d)(1)(A)	The PepperBall Launchers are a less lethal method used to address violent or riotous crowds when there is a risk of physical safety. When these items are reasonable and necessary for use, there is no other alternative.
Public Welfare	Government Code § 7071(d)(1)(B)	These weapons are less lethal and afford officers an added option to avoid lethal force encounters.
Cost Effective	Government Code § 7071(d)(1)(C)	This piece of equipment has a life span of at least 5 years and is cost effective.
Compliance	Government Code § 7071(d)(1)(D)	Use is recorded on a "Military Equipment Use" Blue Team Entry and electronically submitted. Use has been in compliance with Military Equipment Use Policy 706 from May 2022 to present. No complaint or concerned was received.

Item Category: P	epperBall Projectiles	S	
Description	PepperBall Live-x projectiles, inert projectiles and glass shattering		
•	projectiles	•	
Quantity	500 x projectiles, 40	0 inert	Authorized: 2,500
	projectiles, 100 glass		,
	projectiles	5	
Capability		contain a co	ncentration of 5% PAVA pepper
			or area saturation. The inert
	projectiles contain a	harmless sce	ented powder suitable for training.
	The glass breaker is	a solid polym	ner projectile used for breaking out
